Registered Nurse

BELLIN HEALTH, INPATIENT REHAB, COVID-19 UNIT

June 2019 to January 2021

- Assess patients and develop nursing plans of care to meet their medical needs.
- Administer medications and collaborate with physicians about their prognosis and treatment.
- Collaborate extensively with physical and occupational therapist, social workers, case management, respiratory therapists, and hospice nurses on the COVID-19 unit.
- Supervising licensed practical nurses, student nurse techs, and certified nursing assistants.
- I was elected to facilitate the first LGBTQIA+ employee resource group in Bellin's history.

Licensed Practical Nurse

Nurses PRN - Appleton, WI

June 2018 to October 2019

Caring for patients at many different types of facilities in the greater Green Bay area, predominately long-term care and rehabilitation units

Duties include but not limited to

- reassessments of patient conditions
- gathering details on vitals, conditions of disease process, conditions of any wounds, lines, drains, or airways

- providing treatments to patients including wound care, range of motion, breathing exercises and medications
- administer ordered medications
- documentation in various computer charting systems and paper charting
- This position also includes direct supervision of certified nursing assistants and patient support staff.

Licensed Practical Nurse

RENNES - De Pere, WI

August 2016 to October 2017

Cared for patients on the rehabilitation wing and occasionally long-term care wings. LPN duties performed included

- direct patient care
- medication administration
- intravenous line maintenance and reassessment
- teaching reinforcement
- wound care
- delegation to nursing assistive personnel,
- patient assessment
- documentation on point-click-care computer program
- completion of tasks as delegated by the registered nurse
- I left this position when I returned to college to pursue my RN.
