SKILLS

working in memory care unit

WORK EXPERIENCE

9/2001 to 3/2021 **Oakridge Gardens Nursing Home**
Menasha, Wisconsin

Cna

working in the memory care unit

- Answer patient call signals, signal lights, bells, or intercom systems to determine patients' needs.
- Feed patients or assist patients to eat or drink.
- Gather information from caregivers, nurses, or physicians about patient condition, treatment plans, or appropriate activities.
- Lift or assist others to lift patients to move them on or off beds, examination tables, surgical tables, or stretchers.
- Observe or examine patients to detect symptoms that may require medical attention, such as bruises, open wounds, or blood in urine.
- Record vital signs, such as temperature, blood pressure, pulse, or respiration rate, as directed by medical or nursing staff.
- Turn or reposition bedridden patients.
- Undress, wash, and dress patients who are unable to do so for themselves.
- Wash, groom, shave, or drape patients to prepare them for surgery, treatment, or examination.

3/1996 to 8/2001 **Self**
Kaukauna, Wisconsin
Child Care

- Assist in preparing food and serving meals and refreshments to children.
- Create developmentally appropriate lesson plans.
- Discipline children and recommend or initiate other measures to control behavior, such as caring for own clothing and picking up toys and books.
- Dress children and change diapers.
- Instruct children in health and personal habits, such as eating, resting, and toilet habits.
- Maintain a safe play environment.
- Observe and monitor children's play activities.
- Operate in-house day-care centers within businesses.
- Read to children and teach them simple painting, drawing, handicrafts, and songs.
- Regulate children's rest periods.
- Sanitize toys and play equipment.

- Sterilize bottles and prepare formulas.
