I have a wide variety of experience in the health field ranging from working with mentally unstable patients of all ages to working with the elderly population in a nursing home setting. I love helping people so they can be mentally and physically healthy, and so that they can be the best person that they can be. It is very important to me to have a solid/trusting relationship with patients as well as co-workers. I am comfortable working autonomously or in a team-based setting, as long as the patient gets the absolute best care and treatment possible. I am a very friendly, inviting, caring, and patient person and I believe these are key components to be a successful CNA. I work well with any age group, and I am open minded to help anyone in need. My ultimate goal is to help my patients progress into being a healthier person overall, I can do this by being by their side and helping them when they need it the most.

Authorized to work in the US for any employer

Work Experience

CNA - Certified Nursing Assistant

Parkview Health Center - CNA - Oshkosh, WI

July 2019 to Present

I got to further and perfect my CNA skills. At this facility I am responsible for caring for clients 24/7 which includes; toileting, dressing, grooming, eating, monitoring and transferring. I can use the stand aide machine and full body lift with ease. I currently am employed here but am open to switching facilities for an increase in pay.

Psychiatric Care Technician

Winnebago Mental Health Institute

October 2017 to April 2019

WMHI was my biggest learning opportunity in all of my careers. I learned how to deal with mentally ill patients and how to care for them. I worked with patients everyday, hand in hand. I learned a lot about all the different types of mental illnesses and how they affect people, I also learned what some of the medications are that help to treat different illnesses. To be able to obtain this job I had to have my CNA license, there would be patients that were unable to care for themselves. Overall this job was a great learning opportunity in all aspects.

Cashier/Customer service

Jimmy Johns - Fond du Lac, WI

April 2015 to October 2017

I've had this job since I was 16 years old, but I was looking for a more professional career. Some responsibilities are: caring for customers needs, making sure that customers are satisfied, handling money and doing mathematics, running line and being responsible for the foods outcome, tending to unhappy customers with the outcome concluding to the customers being satisfied and happy.

Hair colorist/washer

Kruegers - Fond du Lac, WI

January 2017 to May 2017

In this job I was responsible for coloring and washing hair. I was also responsible for cleaning and maintaining the store. I was still employed at Jimmy John's while working here, I was seeking better payment. I no longer work at Krueger, because of the lack of interest in the profession; I found out that it was something that I didn't want to pursue any further in.

Career Goals

My goals are to pursue a career in the medical field and to be able to help people in need. I have achieved my goal of getting my CNA. My later future goals are to further my education and become an RN. I believe that this is an achievable goal that will take time, but will be a great career choice.

Education
