## Work Experience

---

### **Registered Nurse (RN)**

Advocate Aurora Health - Grafton, WI

September 2020 to June 2021

While working on the Hospital's Covid-19 Med Surg Floor, I performed the following skills: Administered oral, subcutaneous (including sliding scale), reading telemetry, intramuscular, IV Push, IV Piggyback, IV drip, medications, and suspensions. Managed doctor's orders, consulted with doctors and spoke with families about treatment plans. Performed admissions, transfers, and discharges on patients. Took vitals and performed twice per shift physical assessments as well as neurological, Sepsis Screening, Safety, and post-fall assessments. Donned and removed PPE for contact, droplet, airborne, and special contact precaution patients especially those with Covid-19. Educated patients on the use of medical devices, healthy lifestyle habits, chronic conditions, infection control, infectious diseases, new medications, symptoms to report, and the importance of follow-up primary care. Performed wound care on patients including all 4 stages of pressure injuries. Coordinated with Physical Therapy, Occupational Therapy, and Social work to coordinate discharge and transfer of patients to new facilities. Received and gave report at the beginning and end of shifts. Participated in OFT's and coordinated with Case Managers, Social Work, and various physicians to coordinate plans of care. Charted on admissions, assessments, discharges, medications, vital signs, intravenous lines, intakes and outputs, care plans, and wrote daily progress notes for all patients. Spoke with family members about their loved one's condition while ensuring HIPPA compliance for family members who were not authorized by the patient to receive updates.

### **Registered Nurse Advocate Aurora**

St. Luke's South Shore - Cudahy, WI

March 2020 to May 2020

While working on the Hospital's Covid-19 Positive Med Surg Floor, I performed the following skills: Administered oral, subcutaneous (including sliding scale), intramuscular, IV Push, IV Piggyback, IV drip, medications, and suspensions. Managed doctor's orders, consulted with doctors, and spoke with families about treatment plans. Performed admissions, transfers, and discharges on patients. Took vitals and performed twice daily physical assessments as well as neurological, Sepsis Screening, Safety, and post-fall assessments. Donned and removed PPE for contact, droplet, airborne, and special contact precaution patients especially those with Covid-19. Educated patients on the use of medical devices, healthy lifestyle habits, chronic conditions, infection control, infectious diseases, new medications, symptoms to report, and the importance of follow-up primary care. Performed wound care on patients including all 4 stages of pressure injuries. Coordinated with Physical Therapy, Occupational Therapy, and Social work to coordinate discharge and transfer of patients to new facilities. Received and gave report at the beginning and end of shifts. Participated in OFT's and coordinated with Case Managers, Social Work, and various physicians to coordinate plan of care. Charted on admissions, assessments, discharges,

medications, vital signs, intravenous lines, intakes and outputs, care plans, and wrote daily progress notes for all patients. Spoke with family members about their loved one's condition while ensuring HIPPA compliance for family members who were not authorized by the patient to receive updates.
