## Summary

Emergency room nurse with 3+ years of experience working in the inner city, with high patient volumes and acuities. Proficiently performs in high stress/critical situations to provide emergent care to increase favorable patient outcomes.

## Experience

October 2020 - Present

### **Froedtert Medical Lutheran Center through CareRev-RN**

- Evaluating and assessing the acuity of patients on a daily basis.
- Evaluate patients of all acuities, anticipate orders that correlate with care to provide the best patient outcomes
- Working with the interdisciplinary healthcare team with fluidity to provide patient care.

June 2018 - PRESENT

### **Ascension St. Joseph - RN**

- Evaluating and assessing the acuity of patients on a daily basis.
- Act as a resource and preceptor to new employees, nurse interns, students, any other interdisciplinary team members.
- Caring for critically ill patients across the lifespan, ranging from pediatric to geriatric with emphasis on trauma and critical injuries.

August 2017 - June 2018

### **Ascension St. Joseph- EDT**

- Assisting patients with ADLs
- Assist nursing staff and physicians with specimen collection for lab analysis, OCL and splint application, and EKGs
- Assist ER staff with trauma and critical care patients

November 2015 - July 2017

### **Aurora St. Lukes Medical Center- CNA/HUC**

- Assist patients with ADLs, rounding, charting, and bathing patients.
- Assisted members in the interdisciplinary care team to efficiently care for patients in a timely manner.

- Handled the unit's call light system as well as answering all phone calls directed to the department. Upkeep on all patient charts as well as discharge planning with social work. Assisting flow of the department with patient transports to procedures and testing, and ordering supplies for the floor.
