Certified Nursing Assistant

Green Bay, WI 54302

sharpedavid03@gmail.com

8156563567

My objective is to have a job that provides compassion to patients like the compassion I have for them!
Seeing people smile and happy and have positive energy

Willing to relocate: Anywhere

Authorized to work in the US for any employer

Work Experience

CNA - Certified Nursing Assistant

Riverbluff Nursing Home - Rockford, IL

June 2018 to Present

Everyday coming into work I make sure I have a good mood and attitude. My day starts out with checking to see who are my showers are and I do them right away. Then I move onto my other patients, I get them up and dressed and presentable. I also help assist with feeding and cueing for our residents. I make sure I answer any call lights right away so my patients know I am there for them. I report anything to my charge nurse and I chart on my patients so our campus knows our residents are being well taken care of well beyond expectations.

Certified Nursing Assistant

Generations at Neighborz - Byron, IL

July 2019 to January 2021

Assisting residents with their active daily living skills, charting, reposition for any kind of wounds, sores, etc, vitals especially during covid isolations.

Dietary Aide

Atrium Post Acute Care of Two Rivers

August 2015 to December 2015

From the morning to till about two pm I wash my hands numerous times before touching anything especially after preparing foods for the day and for the following day(s). First thing I do in the kitchen is set up the juice cart for breakfast. After that I go upstairs with the juice cart to go to the kitchenette and begin making coffee and toast for the residents. Immediately after I am done I set up the dining room and begin serving food and drinks as the residents are entering the dining room. After all residents have been fed well I pack everything up into a cart and take down the food cart, juice cart and the bread cart down back to the kitchen and put away the cooled products away. Then I go back upstairs to clean out the dining room once all residents are done eating and the CNA's have noted down each table. Then I do the dishes and wrap silverware and put away all dishes. Shortly after that I go ahead and start prepping foods according to the weekly menu. Once all foods are done I clean and do stock.

Closer

CNA

August 2014 to February 2015

Avalon Springs | June 9th-May 1

● Everyday coming into work I make sure I have a good mood and attitude. My day starts out with checking to see who are my showers are and I do them right away. Then I move onto my other patients, I get them up and dressed and presentable. I also help assist with feeding and cueing for our residents. I make sure I answer any call lights right away so my patients know I am there for them. I report anything to my charge nurse and I chart on my patients so our campus knows our residents are being well taken care of well beyond expectations.

Closer | Lakeshore Cinema | August 27 2014-February 27, 2015

● When I enter the building for my shift I immediately go upstairs to turn on the oven and grill. I unlock the storage room, and start refilling any empty containers. Then I go back down stairs to take out the garbage, and once I am done with that I go ahead and vacuum the floors and theater room and wipe and clean all tables. After that is then I go make the popcorn and restock any candy and cups and lids. Once that was done I unlock the doors for people to come in and watch the movie but I also help out in the concession stand. After everyone has their popcorn, drink, etc I go in the theater room and go to each table and ask each guest if they would like to order anything off the menu. After all the orders are done I go upstairs and make the food such as pizza, burgers, pretzels, breadsticks. After the food has been delivered and all the showings are done, I count the till and clean out popcorn machine and go upstairs to do the dishes and turn off oven and grill and lock storage room and finally lock the doors to the building.

Additional Information

MANAGEMENT

- I know how to cook pretty well and follow the directions precisely. I have know how to cook for seven years now and time management is not an issue when I am completing a task.
- Multitasking is another abilities of mine. From my previous job at Lakeshore Cinema.
- I am able to provide great Customer Services for patients and giving them their daily living skills for the day.

COMMUNICATION

- I can communicate very well, whenever there is a problem I report it right away. I ask for help or ask any kind of questions when I am stuck in a situation that seems hard or a little confusing to me.

LEADERSHIP

My Leadership skills aren't that skilled however when I am in a position for being a leader I can handle it in the most respectful manner as possible and help the consumer or customer out as much as possible.
