Dedicated, skilled RN with a broad range of healthcare experience. Caring professional with excellent communication and critical care skills. Self-starting team player who works well under pressure completing multiple tasks in a fast paced environment.

## Skills Summary

---

- Over thirty years of critical care experience along with 12 years experience in Emergency care, including trauma, cardiac, and stroke patients.
- Perform quick assessment of patients entering the Emergency Department to quickly determine the triage level of each individual; including performing nursing care treatment prior to the patient being seen by the Physician.
- Competent in assessment skills and evaluating normal levels of function vs. deviations from normal physical functioning levels (i.e. heart, lung, neurological).
- Coordinate care of patients according to level of injury/illness, and prioritize care based on patient's acuity.
- Utilize standards of care and the nursing process in daily practice.
- Proficient in critical care monitoring and coordinating admission of complex patients to the respective units for specialized care.
