## Work Experience

---

### **Clinical Nursing Instructor**

Veteran's Health Administration - Oak Brook, IL

August 2019 to Present

Promotes excellence in the education of future healthcare professionals within nursing by teaching fundamental skills and validating competencies. Simulation laboratory, and clinical instructor for Medical/Surgical I students.

- Demonstrates and teach nursing skills at varying clinical sites to nursing students.
- Instructs and guides nursing students in the clinical setting.
- Conducts lectures and supervises laboratory/clinical work, and issues assignments based upon patients with acuity's utilizing the nursing process.

### **Clinical Staff Nurse II**

Veteran's Health Administration - Hines, IL

May 2011 to Present

As a full-time evening nurse at Edward Hines Jr. Veterans Administration, I coordinate and deliver direct care on its 55 bed Long/Short-term/Hospice units during my evening tour of duty (3:30pm to midnight). I function in the role of charge nurse coordinating nursing assignments based upon needs of unit; prepare schedules for my tour of duty; oversee admissions and discharges; monitors and orders medications as needed. Attends End-of-life Nursing Consortium (ELNEC) training annually.

- Accountable for supervising care provided by up to 10 professional and ancillary nursing staff to whom I provide guidance to.
- Communicates with family members and interdisciplinary staff to further promote holistic veteran-centered care.
- Educates family on end-of-life care and the dying process
