OCCUPATIONAL OBJECTIVE: To obtain a position where my experience, judgment, and training can be utilized to mutual advantage.

SUMMARY: I am an RN, BSN with 26 years experience which includes Critical care areas 18 years and ER 7 years. My specialty areas include Intensive Care, Coronary Care, Cardiovascular Intensive Care, Cardiac cath lab, and ER. The skills I maintain are hemodynamic monitoring, cardiac monitoring, and ventilator management, titrating of various IV antiarrhythmic and vasopressor medications. Devices I have used include: cardiac monitors, ventilators, chest tubes, pacemakers, AICDS, AEDs, Swan-Ganz catheters, A-lines, PICC lines, Vas-caths and other dialysis catheters, Balloon pumps, and CRRT. I have BLS, ACLS, and PALS certifications. Listed below are various organizations that I have had the opportunity to work for, in which I achieved growth, knowledge and experience in my career. I have worked permanent positions as well as travel nursing which has give me great insight on various and different practices in the nursing field.

2017 to present: Novant Health ICU staff nurse.

2012 to 2016: Worked full time as an ER staff nurse for Wake Forest Baptist health -Davie Medical Center in Bermuda Run, NC. My active role is a staff nurse working 12 hour night shift where I also function as the Team Leader. We are a 22 bed free standing ER at this time with the expected expansion of becoming an in-patient facility in the year 2017.

2012: Worked for Carilion Roanoke Memorial Hospital in Va. In an 80-bed Level 1 Trauma Center ER that is also a tertiary referral center, Bariatric, Chest pain, Stroke and a Joint Center of Excellence. Large facility with various patient acuities which include multiple Trauma, Heart, and Stroke alerts daily.

2010-2011: Worked in ER as a permanent staff nurse at Davis Regional Medical Center, a 19 bed Emergency Department and at Wilkes Regional Medical Center as a travel Nurse in an 18 bed Emergency Department.

Various duties to name a few included triages, simple lacerations, splinting of fractures, care of MI's, CHF, sedation, cardiac arrest and transferring critical patient to a higher level of care.

2008-2009: Worked for Novant Healthcare at Rowan Regional Medical Center in an ICU setting. Various duties to name a few include ventilator management, post-op surgical unstable patients, chest tubes, a-lines, cardiac monitoring.

2007: Worked at Duke Raleigh Hospital as a travel nurse through Onward Healthcare in an ICU setting.

2006: Worked at Lake Norman Regional Medical Center in an ICU setting. Small unit and duties range from medical management to cardiac, ventilator, and hemodynamic monitoring.

2005: Worked at Frye Regional Medical Center in an 8 bed CVICU setting. Cared for patients post open heart, valve replacements, MI's, CHF, to angina. Many one to one patient ratio d/t immediate post-op CABG patients with multiple drips, cardiac monitoring, ventilator management, frequent hemodynamic monitoring, pacemakers, chest tubes, and basic critical care condition.

2004-2005: Worked at Wake Forest University Baptist Medical Center as a staff RN in ICU and CCU setting. Cared for patients with a multitude of various diagnosis which include CHF, MI's, A-fib, heart transplants, renal failure requiring CRRT, cardiac tamponade, and post interventional cardiac catheterization. I gained a tremendous amount of knowledge at this facility while obtaining my BSN at UNCG.

1989-2004: Worked at Davis Regional Medical Center. Started as a CNA while obtaining my ADN in nursing and working on Med-Surgical floor. In 1992, I graduated and worked on Medical floor for six months and then transferred to an 8 bed ICU unit. I worked as a staff nurse and cared for patients with multiple ICU diagnosis. In 2002 I worked also in the Cardiac Cath Lab as well as in the ICU on weekends. I was obtaining my BSN in 2004 and decided I wanted to obtain a nursing position that included taking care of more critical patients and gain critical thinking skills to further gain knowledge and experience in my career of nursing.
