## Experience

July 2006 – Present

Registered Nurse | Blank Children's Emergency Room | Des Moines, IA

- Utilized the nursing processes; assessed, planned, provided and evaluated nursing care for ages 0-18.
- Provided and managed goal-oriented patient care by utilizing established nursing processes and principles.
- Managed pediatric oncology/hematology patients while visiting the ER.
- Demonstrated awareness of ongoing ER unit needs to provide other team members with leadership and direction for reaching optimal nursing care standards.
- Collaborated with other ER professionals to ensure effective patient care delivery – Identified patients' conditions and addressed nursing care.
- Acted as a Charge Nurse for 8 years to perform ER tasks, handled problems and patient complaints.
- Continually looked for opportunities for professional development and improvement.

2010 – 2011

Pediatric Transport Nurse | Blank Children's Hospital | Des Moines, IA

- Respond to emergency calls for medical help
- Provide basic and advanced life support to patients
- Assess medical conditions of victims and provide nursing care in ambulance, and helicopter
- Stabilize patients at accident sites and rush them to nearest hospital
- Take vital signs and pass on details to physicians for further instructions
- Perform intubations, operate ventilator and other advanced devices as required
- Administered medications, monitor patients, and reported their reactions to physicians.

2005 – 2006

Registered Nurse – Intensive Coronary Unit | Cross Country Travel Corp | Boca Raton, FL

- Worked alongside physicians to provide exceptional care to patients admitted to the ICU.
- Evaluated case history and collected data to devise individual treatment plan.
- Administered treatment safely.
- Carefully designed strategies to meet identified learning needs.
- Provided service to patients suffering from acute or chronic illnesses.
- Took care of patients in compliance with Patient's Rights.
- Took immediate measures while observing negative signs in patients' conditions.
- Ensured that life support equipment, such as ventilators and feeding tubes functioned properly.
- Performed adequate bedside manner, demonstrated compassion, observation spirit, and good communication skills.
- Provided compassionate bedside care to patients suffering from acute and chronic illness, eg. Vascular telemetry CABG etc.
