GROVE AT THE LAKE - Zion, IL

November 2012 to October 2016

- Administer prescribed medications.
- Observe patients, charting and reporting changes in patients' conditions, such as adverse reactions to medication or treatment, and taking any necessary action.
- Provide basic patient care or treatments, such as taking temperatures or blood pressures, dressing wounds, treating bedsores, giving enema, massaging, or performing catheterizations.
- Answer patients' calls and determine how to assist them.
- Measure and record patients' vital signs, such as height, weight, temperature, blood pressure, pulse, and respiration.
- Work as part of a healthcare team to assess patient needs, plan and modify care, and implement interventions.
- Collect samples, such as blood, urine, or sputum from patients, and perform routine laboratory tests on samples.
- Prepare patients for examinations, tests, or treatments and explain procedures.
- Evaluate nursing intervention outcomes, conferring with other healthcare team members as necessary.
- Record food and fluid intake and output.
- Make appointments, keep records, or perform other clerical duties in doctors' offices or clinics.
- Examine food trays for conformance to prescribed diet.

- Admit new patients and discharge patients when doctors give order. Verified patients medication with doctors and check through patients medication list if there is drug interactions.
