EDUCATION

Winona State University - Rochester, MN

Adult-Gerontology Acute Care Doctor of Nursing Practice (in process) **5/2020**

St Catherine University - St Paul, MN

Graduate Certificate in Organizational Leadership **6/2014**

St Catherine University - St Paul, MN

Bachelor of Science in Nursing, Cum Laude **6/2007**

St Catherine University - Minneapolis, MN

Associates Degree in Nursing **12/2013**

PROFESSIONAL EXPERIENCE

UNIVERSITY OF MINNESOTA MEDICAL CENTER, FAIRVIEW **1/2004 - present**

Nurse Unit Lead, Medical Intensive Care Unit **2/2013 - 11/2016**

- Oversight, planning and implementation of nursing care with patient centered focus.
- Promote culture of excellence, interdisciplinary collaboration, enhancing patient outcomes, staff engagement.
- Supervise nursing personnel, maximize productivity and patient safety, monitor resources.
- Institute process change incorporating evidence-based solutions.

Charge Nurse/Staff Nurse, Medical Intensive Care Unit **1/2004 - 2/2013 & 11/2016 - present**

- Tertiary nursing at an urban, academic transplant center with expertise in complex acute medical issues and comorbidities. Support patients and families facing acute crisis and end-of-life.
- Patient population: acute and chronic liver and renal diseases; acute and chronic pulmonary diseases such as ARDS, IPF, cystic fibrosis, ILD; hematology/oncology including bone marrow transplantation; drug overdose; septic shock; and others.
- Member of "Code Blue" response team.

Staff Nurse, Special Pathogens Team **10/2014 - 8/2018**

- Coordinate/implement clinical management and infection control practices for disease of concern.
- Knowledge of risk factors, presentation, mode of transmission, infection prevention measures required for containment.
- Proficient in infection prevention procedures and adherence to national recommendations.
- Culturally sensitive education/support to family members and general community regarding illness and stigmas.

Staff Nurse, Telemedicine Intensive Care Unit **12/2012 - 6/2017**

- Provide telemedicine care to patients at multiple ICUs across the Fairview System utilizing technology to remotely collect, observe and analyze data.
- Direct observation and collaboration via videoconferencing, surveillance for adverse physiological trends, assurance of prophylactic strategies, and medical chart review.

PROFESSIONAL INVOLVEMENT

Leah B Chapman, RN BSN CCRN

Society of Critical Care Medicine	2015 - present
American Association of Critical Care Nurses	2010 - present
Sigma Theta Tau International Honor Society of Nursing	2004 - 2007 & 2016 - present

PRESENTATIONS

Poster presentation; Structured Patient Care Rounds in the Intensive Care Unit; Midwest Nursing Research Society; Kansas City, MO; March 2019

Presenter; Early mobilization in the intensive care unit: A collaborative, integrated approach; 48th Critical Care Congress; San Diego, CA; February 2019

Poster presentation; Early mobilization in the intensive care unit: A collaborative, integrated approach; Society of Critical Care Medicine Quality and Patient Safety Summit; San Diego, CA; February 2019

Poster presentation; Structured Patient Care Rounds in the Intensive Care Unit; American Association of Critical Care Nurses, Twin Cities Chapter, Fall Symposium; November 2018

Panelist; PAD Update: Reducing Pain, Agitation and Delirium in the ICU; Care Across the Continuum: A Trauma and Critical Care Conference; Minneapolis, MN; September 2015

CERTIFICATION AND LICENSURE

Registered Nurse, State of Minnesota	2004 - present
CCRN Certified, American Association of Critical Care Nurses	2008 - present
Basic Life Support (BLS)	2004 - present
Advance Cardiac Life Support (ACLS)	2004 - present

CLINICAL SCHOLARSHIP

Structured Interdisciplinary Rounding in the ICU **9/2017-present**

- Goal: Use current evidence to develop and implement a structured interdisciplinary rounding format for the adult ICUs at an urban, academic medical center to increase collaboration, decrease omission of bundle items, and increase understanding of daily goals of care.
- Results: Project was successfully implemented beginning May 2018. Observed 94% adoption rate 12 weeks after implementation period. Significant increase in levels of collaboration and appropriate consideration of bundle items. Currently in dissemination phase.

ICU Liberation Bundle Implementation **9/2015-11/2018**

- Goal: Work with a multidisciplinary team to develop and implement an evidenced-based early mobility protocol in three adult intensive care units to promote consistent practice

Leah B Chapman, RN BSN CCRN

with respect to patient mobility.

- Results: Successful development and implementation of Early Mobility Protocol. Reduction in time to ambulation and increase in probability of ambulation. Overall increase in ambulation of 8.5%. Largest increase seen in patients 65 years and older. In process of expansion to all ICUs in health system.

Nursing and Paraprofessional Self Scheduling

5/2014 - 9/2014

- Goal: Develop a process staff to create their ideal schedule, keeping in mind requirements for unit staffing
- Results: Significant improvements in staff satisfaction and attendance. Decreased use of float pool and agency nurses and administrative time spent on day to day scheduling concerns.

Daily Family Phone Call

9/2013 - 11/2013

- Goal: Implement a daily morning phone call to a designated member of each ICU patient's family providing an update and tentative plan of care with the goal of enhancing communication between ICU team and patient's families, increasing patient/family satisfaction and involvement.
- Results: A daily phone call remains part of practice. Surveys of patients and families were conducted for 3 consecutive months after starting the practice, all with 87% and greater satisfaction ratings.

COMMUNITY SERVICE

The Open Door Pantry

8/2018 - present

- Assist clients with intake, scheduling, and food selection.
- Sort/stock produce and other donations.
- Creation of food safety resource sheet for non-English speaking populations.

The Bridge for Youth, Minneapolis, MN

2/2010 - 6/2011

- Health assessment intake for at risk homeless and displaced youth.
- Counseling of youth on healthy behaviors and health promotion activities such as sexual health, high risk behaviors, and substance abuse.
- Advise shelter staff on potential needs of the client and recommended follow-up/appointments.
