## Experience

**Medical City Arlington ER- Registered Nurse** 2018-2019

- Triage incoming patients, rapidly assessing patient needs and determining appropriate actions.
- Review and follow physicians' orders, update medical charts, and answer patient questions.
- Perform procedures including IVs and catheter insertion, medication administration, injections, wound care, and dressing changes.
- Schedule and coordinate patient care with other departments including lab tests, radiology exams, and referrals.
- Maintain patient privacy and safeguard confidentiality of all patient information and records.
- Job Duties included patient call backs, tele triage, and health/medication safety.

**Methodist Charlton Medical Center ER - Registered Nurse** 2016-2018

- Provided care to people across the lifespan with different conditions from infants and children to pregnant women and the elderly
- Independently gave safe and effective care to patients with different acuity levels in a time-restricted and demanding environment
- Administered IV fluids and medications including antibiotics, packed RBCs, TPN, and narcotics, while carefully monitoring for side effects or any adverse reactions
- Decisively and confidently made judgments on patient conditions based on vital signs, patient presentation, and initial assessment; triaged to appropriate zone; activated specialized team when indicated (cath lab, trauma team, rapid response stroke team, etc.)

**Methodist Charlton Cardiology Department- Non-Invasive Technician**

2012-2015

- Experience with assisting with invasive and interventional cardiac cath lab procedures
- In-depth knowledge of basic anatomy and physiology of cardiovascular system
- Remarkable knowledge of heart catheterization, pacemaker implantation and sterile scrub techniques
- Ability to detect and interpret normal and abnormal cardiac rhythms
