PROFESSIONAL EXPERIENCE

Shawnee Mission/Advent Health, Shawnee Mission, Kansas
September 2014 - present

Registered Nurse - Non-Invasive Cardiology

Conducts and monitors non-invasive cardiology testing including treadmill and nuclear stress tests, trans-esophageal echocardiograms, synchronized cardioversions, tilt tables, and coronary CTAs. This position requires proficiency in patient assessment, strong knowledge of EKG interpretation, and excellent communication with providers and other ancillary staff.

Registered Nurse - Ask A Nurse

Utilizing nursing knowledge, provides telephonic triage to callers within the states of Kansas and Missouri. Provides health education to callers and makes appropriate recommendation for follow up care.

University Family Medicine; University of Colorado Health System, Boulder Colorado

Dec 2011 - June 2014

Registered Nurse - Clinical Nurse Coordinator

As a staff RN, was a liaison between patient and providers in a busy family medicine and multi-specialty clinic. Acted as designated specialty RN for cardiology, endocrinology, OB/GYN, physical medicine, and dermatology providers in addition to being a triage RN for all primary care providers. Duties included fielded incoming telephone calls from patients, attending to walk-in patients, performing patient teaching, managing anticoagulation clinic, and performing non-invasive stress testing. As a Clinical Nurse Coordinator, I was responsible for managing the RNs, MAs, and ancillary staff to ensure an efficient and effective clinic flow. I helped lead the clinical team to become recognized by the National Committee for Quality Assurance as a Patient Centered Medical Home.

Boulder Community Hospital Urgent Care, Lafayette Colorado

July 2010 - Jan. 2012

Registered Nurse

Provided emergent patient care by identifying and implementing nursing interventions, and evaluating outcomes. Required the ability to provide compassionate care to all ages with problems ranging from simple, non-urgent to complex, life-threatening conditions. This position required strong nursing knowledge and skills, and the ability to think quickly and work efficiently with ancillary staff to provide excellent patient care. While a member of the BCH team, was an elected member of the Nurse Practice Council and Unit Based Council to improve nursing outcomes.

**Rocky Mountain
May 2006 - Oct. 2009**

Cardiology,

Lafayette,

Colorado

Registered Nurse

Assumed satellite office nurse manager position, provided phone triage, performed non-invasive cardiac procedures, organized physician and procedure schedules, managed Coumadin clinic, and assisted with lipid clinic. This position required excellent communication skills and solid nursing knowledge including proficiency in interpreting EKGs and understanding cardiology medication and conditions. The position also required the ability to be both an independent thinker and a team player.
