To Whom It May Concern:

Through my diverse Emergency Department experience and clinical rotations in the hospital environment, I have had the opportunity to work in several settings, including trauma, critical care, emergency medicine, pediatrics, geriatrics, cardiac telemetry, medical-surgical, maternity, and many more. My experiences have enabled me to develop a strong clinical skill set along with enhanced critical thinking skills that I feel have prepared me well for the many challenges of critical patient care and nursing as a whole.

In all of my academic and professional endeavors, my greatest joy derives from collaborating with physicians, social workers, administrators and family members, in order to offer the most comprehensive, skilled, and caring services to each individual client. I consider myself very lucky to have the opportunity to work as a vital part of the healthcare team, in order to aid the people of my community every day.

I am very interested in continuing my nursing career and believe that my skills, passion, and experience prepare me well to do so. I would love to contact you at your earliest convenience to discuss career opportunities. I look forward to meeting you, and please do not hesitate to contact me at 704-421-5000.

Thank you for your time and consideration.

Sincerely,

Sarah C. Gonzalez
