- Functioned as a trauma lead nurse by running traumas and codes that come into the department. Called back patients with culture results and antibiotics and helped as a resource in the department.

Children's Hospital Los Angeles - Los Angeles, CA ~ Clinical Nurse II; Operating Room Sept. 2014 - March 2015

- Ability to both circulate and scrub in a high-intensity dedicated pediatric operating room including general surgery, neurosurgery, ENT surgery, plastic surgery and orthopedic surgery patients and having the knowledge of various types of equipment and surgical instruments used.
- Develop plan of care, assess patients and parents understanding of surgery and collaborate with other team members ensuring both safety and efficiency with each surgery.

Scripps Mercy Hospital - San Diego, CA ~ Registered Nurse; Surgical Acute Feb. 2013 - Sept. 2014

- Assess, educate and ensure pain control in new postoperative patients such as orthopedic and general surgery patients.
- Management of patients on telemetry monitors, patient controlled analgesic pumps and with various types of drains.
- Cared for telemetry patients with chronic medical conditions including cancer, chronic pain and diabetes while maintaining safety and infection control and fostering improvement in health through evidenced based practice.

WORK RELATED COMMITTEES AND LEADERSHIP

Clinical Practice Council (CPC) - Children's Hospital Orange County

June 2016 - Oct. 2017

- Developed new policies and procedures for project improvement within the emergency department such as a reverse bladder filling protocol to rule out ovarian torsion and a "bili-babe" protocol for quicker introduction to triple phototherapy for jaundiced infants overall decreasing length of stay.

- Created fun and notable ways for staff to promote patient safety within the department such as “Ken” hand off reports between shifts and “Barbie” introduction when placing a patient in their bed as well as the Dr. Seuss program to help promote patient satisfaction.

Pediatric Advanced Care Team (PACT) - Children’s Hospital Orange County

Sept.

2015 - Oct. 2017

- Focused on palliative care patients and bereavement within the emergency department by educating staff on the different bereavement policies within the department and the support offered to families of a deceased patient.
- Implemented “The Pause” in order to give both families and staff involved with a deceased patient the opportunity at the time of death to remember and celebrate the life of the patient.
