EXPERIENCE: 10 years EMS as a paramedic working in the state of CT. Taking care of all age groups with medical and trauma issues. Was the Company representative for the Trauma Committee at the Hospital where we met for monthly meeting to discuss the best treatments for the trauma patients. After becoming a Nurse in 1994 I gained experience in Psych Nursing, then moved on to 18 years of Pediatric Nursing, and finally Emergency Nursing. I also had the great pleasure to provide nursing care to the Pediatric patient in a rotor wing for pediatric transfers and finally critical care in a fixed wing across the country and internationally.

JOBS: July 2015 to Present, UT Health East TX Emergency Department. TYLER TX RN, Started out in the Main Campus ER and 1 year later transferred to the Free standing ER . A fully functioning ER with Lab and Radiology. As a Nurse we were responsible to not only do our nursing duties but also Respiratory. We care for all age groups with all medical and trauma needs. We do Conscious Sedations, Chest tubes, pleural vacs, intubations, central lines, foley catheters, 3 ways, orthopedic immobilization, wound care, strokes, STEMI's ETC. Cerner Program

April 2012-May 2015 REVA Air Ambulance Senior Flight Nurse, FORT LAUDERDALE FL, International Fixed wing, Critical care transport team. When not flying, was Medical Coordinator where the flights were put together. Information was gathered from the pickup hospital about the patient condition, what equipment would be needed and what sort of team would be appropriate to take proper care of this patient. Communicated with the destination facility. Communicated with family members. Dispatched the crews and made sure the aircraft departed on time.

Dec 2010- April 2013 Wellington Regional Medical Center ER, WELLINGTON FL, RN 34 bed Stroke Certified, ER. Relief Charge Nurse once a week. 5:1 ratio. Acute care. Triage 5 level, documentation, implementation, medication, IV, Assessments, evaluations, Education, Wellsoft Program
