Summary

Detail-oriented Registered Nurse in Emergency Nursing with strong clinical skills, seeking to transition to Registered Nurse Health Coach. Well versed in all facets of basic patient care, including assessments, treatment and health education.

Experience

Registered Nurse Emergency Department Oct 2018 to Current
Medical City Lewisville — Lewisville, TX

- Prioritized patient care assignments based on patient condition, responding to unanticipated interruptions while delegating care to achieve optimal, safe and effective outcomes.
- Provided direct patient care, including stabilizing patients and determining the next course of action based on need.
- Documented all administered medications.
- Assessed patients, documented vitals and reviewed patient charts to determine care needs.
- Tested patients' blood glucose levels.
- Explained treatment procedures, medication risks, special diets and physician instructions to patients.

Registered Nurse Emergency Department Jul 2018 to Oct 2018
Comanche County Memorial Hospital — Lawton, OK

- Assisted physicians caring for patients with acute and chronic illness, including code stemi and code stroke using VAN and NIH assessment.
- Completed assessments and charted vital signs in Meditech. Medications administered oral and IV.
- Continued care for Boarder patients until rooms became available.

Registered Nurse Emergency Department Oct 2016 to Jun 2018
Texoma Medical Center Drive — Denison, TX

- Cared for patients with acute and chronic illness. Job responsibilities included taking vital signs, assessments, administered oral and IV medications, obtaining ekg.
- Assisted physicians with code Stemi and Code Strokes protocols. NIH scale use to assess code stroke.
- Continuing my career as a critical care nurse I transferred to CACU/ CATH Lab in June 2018 and remain PRN in CACU.
-

Nov 2015 to Oct 2016
CRITICARE STAFFING AGENCY-UT SOUTHWESTERN-SIMMONS CANCER CENTER —
DALLAS, TX

- Working with Dr. Barbara Haley, caring for breast cancer patients in the ambulatory clinic.
- Responsibilities included assessments, phone triage and mychart messages, working closely with schedulers to set up new patient chemotherapy, scans, labs as well as referrals to supporting physicians.
- Educated patients on diet, medications, activities while receiving treatment.
