Emergency room nursing

FROEDTERT HOSPITAL, MILWAUKEE, WISCONSIN
CURRENT

07/2014 –

Staff Nurse, Emergency Department: Emergency trauma nurse in one of only two Level One Trauma Centers in the state of Wisconsin. A 550 bed teaching hospital and home of the Medical College of Wisconsin. Lead triage RN and preceptor. Provided age specific, culturally sensitive nursing care to critically injured and acutely ill patients, implemented the nursing process in accordance with professional standards. Special populations include sickle cell and psychiatric patients. Collaborated with physicians and ancillary services to provide an interdisciplinary patient centered approach to meet the healthcare needs of patients and their family members. Planned and initiated patient/family teaching, providing key information to promote active participation in healthcare. Average 180-220 daily patient visits. I was a member of Shared Governance from 2015-2017 to improve nursing practice, increase staff satisfaction and retention and a member of quality council to provide excellence in patient care.
