### Objective

A compassionate and enthusiastic nurse with 8 years of acute care service looking for the best job opportunity in result-oriented environment where I can use my nursing skills and abilities in order to perform as a nurse practitioner.

### Experience

Staff RN/ charge Rn/ Saint Luke's Hospital

*July 2010 - Present*

Charge RN: Staff unit appropriately according to number and acuity of patients. Patient assignments. Be a resource and support for staff (5 RNs and 2 CNAs).

Staff RN: Care for patients in the acute care telemetry setting using Evidence-based practice with a focus on cardiac care. Educate patients on medications, tests, procedures. Prepare patients for discharge.

Information Associate/ Saint Luke's Hospital

*November 2007 - July 2010*

Unit secretary: Updates census; Notify RN of discharges and admissions. Clerical duties.

### Education

Master of science in nursing (AGNP)  
Spring Arbor University

2019

Bachelor of Science in Nursing  
*Saint Luke's College of Health Science*  
2013

Associate Degree in Nursing  
Penn Valley Community College  
2010

### Leadership/ volunteer

Volunteered to be an educating resource for my unit. When given the opportunity, I will educate staff on new devices, new evidence-based practices. Preceptor for new graduate nurses. Clinical instructor for nursing students.
