Experience

Waukesha Memorial Hospital

RN- 5 Medical/ *February 2017-present*

- I am responsible for patient care on a medical surgical unit.
- The patients consist of detoxification from alcohol/drugs, medication adjustments, post- surgical patients, and patients who experience falls.
- On average I care for 4-5 patients at a time.
- I am a team player and am always willing to help others.
- I am punctual and plan ahead to ensure I am always on time.
- Collaborate with other members of the patient care team to ensure the patient is receiving best possible care.

Froedtert Hospital

RN-5NW (Neurosciences)/ May 2013-August 2017

- I was responsible for patient cares on a typical 4 patient load assignment.
- Shift coordinating/charge nurse where I was responsible for distributing patient assignments for my shift and day shift. I was also responsible for patient satisfaction for the 5th floor.
- NPCU patient load (ICU step down). This entails a 3 patient assignment load due to the complexity of the patient cases. Critical thinking is required as well as time management skills.
- I am a team player and am always willing to help others.
- I am punctual and plan a head to ensure I am always on time.
- Collaborate with other members of the patient care team to ensure the patient is receiving best possible care.
