COVID ICU RN

Maxim Healthcare Services - Chicago, IL

February 2020 to April 2020

COVID ICU RN in Chicago. My skills are generally based around managing critical COVID patients. This includes multi system interventions, treatments, identification and documentation. It is a unique and fast paced inner city critical care unit. We work hands on while following government and hospital protocol.

Regional Director of Wellness

Pathway to Living - Chicago, IL

March 2019 to February 2020

Oversee all communities Wellness/nursing departments in Wisconsin and Minnesota. In compliance with the state regulations I go into communities to assure superior nursing care. I have experience in the hiring and development of new Don's, LPNs and CNAs. I teach through UWGB medication administration, standard precautions, first aid and choking. I have developed a new training and education module for the company for Don's LPNs and CNAs, I have implemented in 6 buildings a new computer program, I have established and implemented the QA process in all 6 communities, I have opened successfully 2 new 107 bed communities, I have in conjunction with 1 other co-worker developed a new investigation processes. I have done plan of corrections, I have with the Executive Directors submitted state reports, I have developed an infection control program, I have adhered to budget, I have held and developed regional calls using zoom and Trello.

DIRECTOR OF NURSING

ST JOSEPH RESIDENCE

July 2016 to December 2017

Managed Nursing department, scheduling, supplies ordering, and budget. Hired, educated and orientated all nurses and CNAs. Managed monthly nurse meetings, organized all nursing education and teaching, Created a wound program, managed infection control for building, performed all nurse and CNA reviews, worked the floor when coverage needed, worked the floor with new nurses to train. Managed all scheduling of nursing staff. Approved with Administrator all admissions. Audits and training for quality

assurance. Head of QAPI. Managed and trained ADON and Unit Manager, Safety Liaison for construction. Created 62 Policies and procedures, in conjunction with administrator managed all investigations, on call for SNF, head of quality control.
