Nurse Manager, In-patient Nursing

Lake Chelan Community Hospital - Chelan, WA

October 2016 to March 2017

Manager over Medical Surgical Unit/OB/Sanctuary Unit. I implemented a neonatal crash cart, a new stat c-section process, updated and revised nursing policies to current evidence-based nursing practice, performed annual evaluations and competencies, managed the budget for 3 departments, worked on quality control measures, and much more.

Clinical Nurse Manager

Healogics - Everett, WA

June 2015 to October 2016

Responsibilities

Responsible for the clinical operations of the back office, participated in the development and implementation of policies and procedures ensuring staff comprehension and compliance. Oversaw the smooth progression of the patient schedule and flow, as well as managed staff resources needed during staffing or volume fluctuations. Participated in leadership team activities, and the interview process for back office positions. Helped with fiscal management of the clinic, and facilitated the resolution of patient complaints in a professional manner. Worked as liaison between clinic, and other hospital departments and community resources. Managed patients with chronic diseases following established protocols and systems for disease management in collaboration with providers.

Accomplishments

I have accomplished a great deal, I have transitioned the clinic from Acelecare to Healogics. Incorporating new policies, a new EMR, and a new case management nursing model. Since this we have increased patient volume, increased patient satisfaction, and are providing the best evidence based care for our patients.
