Compassionate and highly competent registered nurse with 28 years of clinical nursing experience in multiple areas of nursing. Dedicated to providing high quality patient care with focus on safety and using evidence-based practices to improve treatment outcomes. Skilled in quickly building connections with patients to build trust and rapport in stressful situations.

Authorized to work in the US for any employer

Work Experience

RN Staff Nurse

Hamilton Staffing Solutions - Clermont, FL

October 2021 to Present

I work as a contracted staff nurse in a critical access hospital in rural Montana. Conduct patient assessments and diagnostic testing in a inpatient hospital setting. As staff nurse provided care to patients with multiple co-morbidities including COVID positive patients. Provided the physician with important health information used to create focus treatment plan and manage ongoing care. Review physician orders to implement infusion therapies, treatments and medications. Instructed patients ,families and caregivers on diagnoses ,chronic disease management and prevention with medication self management to maintain continuum of care.

RN Staff Nurse

Loyal Source - Orlando, FL

April 2021 to September 2021

Provided nursing care to underprivileged children in a camp setting in rural Texas. I perform Covid testing, assessments and vaccinations at this site. Provided daily care , monitored, recorded and communicated changes in the children as indicated to providers. This was a government contracted position.

Registered Nurse (RN)

Cancer Care Center of Selma - Selma, AL

April 2020 to May 2021

Outpatient Oncology / Infusion Nurse

I currently provide care to cancer patients with multiple co-morbidities on a daily basis. I work closely with a physician and other team members to design and individualize cancer care plans. Identify and recommend treatment for cancer-related side effects. Educate and counsel patients and family members on all aspects of cancer treatment. Access implanted ports , PICC lines, start peripheral IV's and perform phlebotomy on daily basis. I am chemotherapy certified to administer chemotherapy, immunotherapy, hydration and injections as prescribed. Monitor labs on a daily and report abnormal findings to physician to adjust treatment plans. Provide emotional support to patients and family members.

Registered Nurse ER/ Medsurg

J.Paul Jones Hospital - Camden, AL

June 2019 to July 2020

Conduct patient assessments and diagnostic test in an emergency room and inpatient hospital setting. These included but not limited to working with cardiovascular and neurological conditions. Provided the physician with important health information used to create focus treatment plan and manage ongoing care. Review physician orders to implement infusion therapies, treatments and medications. Instructed patients ,families and caregivers on diagnoses ,chronic disease management and prevention with medication self management to maintain continuum of care. Continued to work PRN while at cancer center.

Staff Nurse and Procedure Room Nurse

Rush Pain Treatment - Meridian, MS

September 2016 to June 2019

Coordinated care in a busy pain treatment facility with physicians and other clinical staff to prepare for treatment, carry out interventions and enhance the continuum of care to deliver comprehensive services. Explained pain treatment procedures, medication risk, lifestyle changes and physician instructions to patients. Documented on facilities EMR system to update patient records, transmit prescriptions and transfer files. Circulated in procedure room with physician performing pain management procedures and minor surgeries. Monitored and recorded patient condition, vital signs, recovery progress and medication side effects with each procedure in recovery.

RN Clinical Coordinator

Senior Care division of Rush Health System - Butler, AL

August 2012 to July 2015

Admitted patients to outpatient geriatric mental health program and completed through clinical documentation. Directed daily operations at facility caring for more than 10 to 12 individuals. Communicating with patients with compassion while keeping medical information private. Participated in meetings with department heads, counselors and physicians to discuss census information, admissions and discharges for patients. Coordinated weekly work schedules for all employees. Monitored quality assurance program to improve performance and maintain her standards of care.
