## OBJECTIVE

Seeking employment as a registered nurse in a progressive company where I can provide high-quality patient care.

## HEALTHCARE EXPERIENCE

### **RN, Ogden Regional Medical Center Emergency Department; Ogden, UT Sept 2016 – Present**

Provide emergent care for patients with a broad scope of complaints. Assess and triage patients. Work along side skilled providers to give best patient care and to give care patient needs. Create flow within the department by completing personal job duties and by helping others in a dynamic team approach. Be a team leader and team member in a critical care situation. Work calm and collected to complete cares and get results to the appropriate colleagues. Communicate and explain the plan of care and what to expect in a simple and succinct manner. From time to time, complete the role of triage nurse or charge nurse.

### **RN, Ogden Regional Medical Center Float Pool; Ogden, UT Jan 2016 – Sept 2016**

Provided care for patients on the Medical, Surgical, Intermediate Care, and Alcohol and Dependency floors of the hospital. Completed daily cares for patients. Communicated well with family member(s) of patients and helped them feel welcomed. Administered medications as ordered and advocated for patient preference and safety. Exploited opportunities to teach patients way to improve or hasten healing and over all health. Worked well independent within my scope of practice and as a team member to improve patient care and for the safety of others.

### **Skills and Simulation Lab Technician, Nightingale College; Ogden, UT Nov 2014 – Dec 2015**

Kept inventory of the skills lab supply. Involved in assisting instructors in simulations for the students. Set up and take down lab supplies for simulations and other labs. Tutored for math quizzes and exams. Participated in clinical hours set-up at hospital facilities. Assisted in making student and faculty lab and clinical schedules each semester. Kept track of attendance for lab and clinical days. Organized lab supplies and searched for was to improve lab experience for students.

### **RN, MacKay-Dee Hospital; Ogden, UT- Dec 2013 – Mar 2015**

Provided care for patients with the following diagnoses and operations: congestive heart failure, atrial fibrillation with RVR, pulmonary hypertension, pacemaker and defibrillator implantations, coronary and peripheral angiograms and stentings, open heart bypass surgery, valve replacement surgery, and peripheral vessel reconstruction surgery. Administered medication: IV, oral, etc. Taught patients about surgeries, procedures, medications, care post surgery and how to life a heart healthy lifestyle. Maintained care plans. Took orders from practitioners. Performed discontinuation of central lines, arteriole and venous catheterization lines, and chest tubes. Performed clean and sterile dressing changes.

### **RN, University of Utah Hospital; Salt Lake City, UT – Oct 2012–Mar 2014**

Provided care for general surgery, trauma surgery, and orthopedic high-risk surgery patients. Assessed, planned, implemented, and evaluated change in patients' condition. Functioned calmly and competently in high-stress situations. Effectively communicated with many different patients who have been involved in trauma. Planned patient care in an organized manner. Able to triage and shift priorities smoothly. Worked closely with health providers to give exceptional patient care. Provided meaningful procedure education to patients.

### **CNA, University of Utah Hospital; Salt Lake City, UT – Mar 2012–Sept 2012**

Gained patient care experience in the Ortho-Trauma Surgical Specialty Unit. Performed essential CNA tasks such as vital signs, input and output monitoring, blood sugar checks, hygiene care, nutrition care, assisting with ambulation to perform activities of daily living, catheter removal, IV removal, and close supervision care. Worked well with nurses to optimize patient care. Completed tasks in a timely manner.

**Rehabilitation Aide, University of Utah Hospital; Salt Lake City, UT—Mar 2008–Mar 2011**

Assisted acute and orthopedic therapists during patient exercises and stretches. Sustained workflow between therapy department and nursing departments and doctors. Assembled, delivered, and explained how to use orthopedic equipment to patients. Updated patient work list in computers using Citrix computer systems. Worked well under multiple managers. Actively promoted a positive work atmosphere. Gave quality care to patients.

**OTHER EXPERIENCE**

**Apartment Manager, Lincoln Apartments; Salt Lake City, UT—Jun 2009–Sep 2010**

Scheduled work crews, worked with insurance companies, and resolved pressing tenant concerns. Completed routine and emergency repairs. Acquired repair skills through job experiences. Budgeted time and money wisely to accomplish apartment tasks.

**Wildland Firefighter, Utah Fire Authority; Salt Lake City, UT—Summers 2005 and 2002**

Worked hard and effectively in stressful situations. Learned emergency protocols to ensure safety and effectively. Presented a professional, neat, and competitive appearance to site supervisors and other crews. Awarded most motivational firefighter by fellow crew members. Dependable and trustworthy in high-risk and unpredictable situations.
