To Whom This May Concern:

As an eager and motivated young medical professional, I have proven experience effectively and efficiently managing both patients and staff. I have a passion for providing quality care to patients and I believe that my experience and education align well within the responsibilities and expectations that you're seeking for in a Registered Nurse.

My experience in the medical field has given me the ability to master high level nursing skills in management as well as collaborating on diverse teams to establish effective healthcare plans for patients. In my current positions, I serve as a Registered Nurse at the VA Medical Center via Rapid Temps, Cobalt Rehabilitation Hospital and Poydras Home. These roles as well as my combined experience throughout my career so far, have instilled in me the crisis management, supervisory, and most importantly the people skills necessary to take on any project or obstacle thrown my way.

Additionally, my experience as an RN at Ochsner Baptist Medical Center and Poydras Home has helped me to realize and implement clinical duties that I learned throughout the course of my education. As the RN Supervisor at Poydras Home, I have been recognized for proficiently handling difficult situations with patients and their family members.

In addition to excellent leadership skills, I am energetic, organized, flexible, driven and eager to learn new things. I would bring to any position first-rate nursing skills, and a pleasant personality.

Thank you for your time and consideration. I am confident that the skills I've gained from my previous and current roles have adequately prepared me for this position within your organization. Please feel free to contact me at darrell.youngblood@yahoo.com or 504-373-2015 for any additional information. I am looking forward to hearing from you soon.

Best Regards,

Darrell T. Youngblood
