Work Experience

Paramedic/Training Specialist

Colorado State Mental Institute

February 2019 to Present

This was a new position when I started. I built and created protocols, policies, and the job description for current and future paramedics on campus, working with providers and lawmakers to create the best possible position.

- > Respond to and treat all medical emergencies, maintaining contact with patient until discharged from ER or admitted to hospital.
- > Create monthly 'Code Zero Drills' - monthly medical/cardiac arrest drill for each unit to perform. I also review the drill from each unit and provide feedback on performance.
- > I participate in inmate transfers as well, most recently at the forefront of the COVID-19 virus doing pre-screening on inmates and patients coming to the hospital.
- > I also work in the inpatient/outpatient Electroconvulsive therapy clinic, starting IVs and getting the patient ready for their treatment.

- > I teach Continuum of Therapeutic Interventions which is a body restraint application class for safety of the patient and staff. I also teach Personal Escape Techniques, and have adequate knowledge of and have co-taught Verbal Defense and Influence.
- > I also put together and format computer based training.

Paramedic/Firefighter

Rye Fire Protection District

December 2017 to Present

Provide immediate care and treatment to various types of emergency calls.

- > Operate an ambulance, fire engine, tender, and rescue trucks.
- > Knowledgeable and trained on all emergency equipment and procedures.

Paramedic

American Medical Response of Pueblo - Pueblo, CO

August 2015 to October 2019

Provide immediate care and treatment to various type of emergency calls.

- > Operating an ambulance and all emergency ALS equipment.
- > Provide advanced lifesaving care and treatment. Including but not limited to control of a scene, advanced airway management, ACLS treatments, and medication administration.
- > Field Training Officer- Educate and train new employees on daily street operations of AMR Pueblo. Guide and provide feedback on medical skills.

EMT-Basic

Rockford Ambulance - Rockford, MI
October 2013 to April 2015

-Rockford, MI

EMT-- Oct 2013- Apr 2015

- Provide immediate care and treatment to various types of emergency calls.
- Operated a first response vehicle, becoming first on scene and assessing the emergency at hand.
- Assisted in the care and transport of emergency patients.
- Administered basic life support and treatment, including airway management, proper and complete assessments, proper splinting techniques, and trauma assessments and treatment.

Seat Installer/Foreman

Exxcel Contracting Seating Installation Co
April 2008 to 2015

Coordinated and delegated the tasks of 5 to 15 crewmembers to install chairs in a systematic and effective manner.

- Able to interpret blueprints and successfully coordinate the install.
- Diagnosed problems with the install, find a successful solution, and prevent future problems.

Education

License in Paramedicine

Great Lakes EMS Academy - Grand Rapids, MI
January 2014 to June 2015

diploma

Rockford High School

Skills

- Licensed paramedic able to care, diagnose, and execute proper technique while providing pre-hospital care of patients.
- Have leadership experience that allows me to be effective in maintaining a safe and controlled environment, for both patient and personnel on scene.
- Have a passion to learn and expand my education through training, working with more experienced partners and different disciplines.
- Able to listen, learn and apply new and unfamiliar techniques and processes quickly.
- I hold certificates for ACLS, PALS, PHTLS, and CPR. I also have experience with and training for Rapid Sequence Intubations.
