Recent Licensed Registered Nursing graduate seeking an opportunity to showcase skills and knowledge in a nursing role within your organization. I am proven to be a level-headed health professional who remains calm and effective in extremely difficult and stressful situations thanks to the experiences I acquired during my clinical rotations in various units, from four different hospitals here in Broward county. I strongly believe in the importance of companionship and support in patient care. A new nurse with the aspiration to grow and further my education in this profession and contribute meaningfully to the nursing profession.

Authorized to work in the US for any employer
