Work Experience

ER Registered Nurse

Kendall Regional Medical Center Free Standing ER - Doral, FL
February 2020 to Present

- Implements immediate patient care and assists patient admissions.
- Manages basic life support needs and stabilizes patients until the attending physician is available, based upon nursing standards and protocol.
- Records patients' current vital signs.
- Works directly under physicians, assisting them during exams, diagnostic testing and treatments.
- Prepares and administers (orally, subcutaneously, through an IV) and records prescribed medications.
- Maintains proper supplies and appropriate medical equipment to care for patients.
- Displays professionalism while completing multiple urgent tasks in a timely manner.
- Records all care information concisely, accurately and completely, in a timely manner, in the appropriate format and on the appropriate forms.

University of Miami COVID-19 ICU

Med Pro Staffing - Miami, FL
March 2020 to June 2020

- Providing high-quality care and prescribed medical treatment to patients
- Collaborating with multidisciplinary medical teams for patients' comfort and treatment
- Performing complex assessment and intervention for better health and faster recovery of patients
- Monitoring and caring for patients on ventilators and other life-saving equipment
- Providing immense comfort, mental and physical support to patients and their families
- Providing advanced life support, treating wounds, controlling infection, and recording patients' vital signs

Surgical Intensive Care Unit Registered Nurse

Mount Sinai Medical Center - Miami Beach, FL
January 2019 to December 2019

- Set up and monitored life support equipment and devices such as cardiac monitors, transducer, pressure lines, oxygen delivery devices, mechanical ventilators and pulse oximeter
- Performed approved and prescribed diagnostic procedures based on patient's clinical status

- Changed dressings, bathed patients and provided post mortem care
- Evaluated patient's assessment record and lab data results to determine whether an emergency intervention was necessary
- Analyzed which patient can be transferred out to either stepdown or the floor
- Tracked and recorded urine output, blood pressure, oxygen levels and ICU devices attached to patient
- Inserted Intravenous (IV) lines and catheters, changed wound dressings and administered antibiotics.
- Educated family members on treatment methods, medications and discharge procedures

ER Registered Nurse

Mount Sinai Medical Center - Miami Beach, FL

July 2018 to January 2019

Responsible for maintaining care standards in the emergency room.

- Able to assess patients quickly, prioritize, and assist in minor procedures.
- Manage patient check-in process, performance of triage work for doctors, and assisting with initial insurance paperwork.
- Communicate with doctors and patients to keep everyone updated on test results and treatment recommendations.
- Collaborate with laboratory personnel and report lab findings back to ER doctors.
- Assist in the care of traumas, cardiac arrests, strokes, sexual assaults and conscious sedations.
- Demonstration of sound decision-making in emergency scenarios based on patient conditions such as vital signs, patient presentation, and assessments.
- Provide RN care for all ER patients, as well as handling of intubations, defibrillations, auto transfusions, Medlock insertions, splinting, and more.
