- I was also employed at My Innovative Services Inc. I was hired in March of 2012. I was a caregiver for mentally handicapped individuals. My job allowed me to transport clients to and from doctor appointments, take them shopping, along with work and other activities using a company vehicle. I went into their home and administer medications, clean, cook and assist in any other needs that my clients need.
- I've also worked in a assisted living facility, CBRF and nursing homes. My duties there included bathing, feeding, dressing, ambulating, toileting, administer medications, checking blood sugar and give insulin, dressing changes, range of motion, taking and recording vital signs, and working with other nursing staff to provide to best care possible.
