Dear Person of Interest;

I would first like to thank you for taking the time to review my resume and qualifications. I have 17 years acute care experience and I am currently employed with Dignity Health where I have been for the past 12 years. In addition, I have supervised a pediatric clinic for Community Health Centers where I learned much my leadership.skills. I feel I work well with other employees and assist whenever possible. I am also able to work independently. I feel my strengths are problem solving, organization, my nurse/patient relationship, my desire to help others and my love for nursing. I am a dedicated employee and I work hard or my employer and our patients. I have enjoyed working in acute care for do many years but now I am ready to transition into another type of nursing.

It has always been my passion to work as a hospice nurse and the reason I am a nurse today. I am currently seeking employment in home health, hospice or infusion therapy. I am looking for a part-time position (48hr ppp) however I am not opposed to picking up shifts when needed. If given the opportunity I would be dedicated, productive and an asset to the department by providing exceptional nursing care and collaboration. Again thank you for your interest and I look forward to hearing from you.

If offered this position I would be able to start immediately following a sufficient notification and resignation to my current manager. I have included a downloaded resume for you to Look over. I am also able to provide letters of recommendation, licensure and certificates. Again, thank you for your interest and I look forward to hearing from you.

Sincerely,
Corrie Aude, RN
