WORK EXPERIENCE

Kaiser Permanente Moreno Valley Medical Center

Moreno Valley, CA

Travel RN, Medical-Surgical ICU

March 2020-May 2020

- Care to medically and surgically complex patients
- Continuous EKG, pulse oximetry, and blood pressure monitoring with appropriate nursing interventions, cardiac output, SVO2, and/or ICP monitoring when required
- Post-operative recovery for surgical patients who require critical care monitoring
- Care and monitoring of the intubated and sedated patient
- Interprets ECG rhythm strips and evaluates 12-lead ECG's
- Assists with insertion of arterial lines and central venous catheters
- Monitors invasive pressures draws blood from arterial, CVP and other invasive lines
- Monitors and titrates IV vasoactive, anti-arrhythmic and other special drugs

Baylor Scott & White Medical Center Carrollton

Carrollton, TX

Travel RN, Medical-Surgical ICU

October 2019-January 2020

- Continuous ECG, pulse oximetry, and blood pressure monitoring with appropriate nursing interventions; cardiac output, SVO2 monitoring when required
- Post-operative recovery for cardiac catheterization patients who require critical care monitoring
- Care and monitoring of the intubated and sedated patient
- Monitors and titrates IV vasoactive, anti-arrhythmic and other special drugs
- Interprets ECG rhythm strips and evaluates 12-lead ECG's
- Assists with insertion of arterial lines and central venous catheters
- Monitors invasive pressures draws blood from arterial, CVP and other invasive lines
- Assesses critically ill patients in an ongoing manner

Ben Taub Hospital

Houston, TX

Staff RN, Trauma/Surgical/Cardiovascular ICU

August 2016-September 2019

- Care to surgically complex patients
- Provide trauma specific patient care such as stabilizing critical patients, performing massive transfusion and fluid resuscitation, titrating intravenous critical drips by interpretation of noninvasive and invasive hemodynamic monitoring values
- Post-operative recovery for CABG, MVR, AVR who require critical care monitoring; includes care of patients with Intra-Aortic Balloon Pump
- Continuous EKG, pulse oximetry, and blood pressure monitoring with appropriate nursing interventions, cardiac output, SVO2, and/or ICP monitoring when required
- Care and monitoring of the intubated and sedated patient
- Monitor and titrate vasoactive, anti-arrhythmic, sedation and other special drugs
- Responds to Code Blue situations and implements life-saving measures per ACLS protocol
- Interprets ECG rhythm strips and evaluates 12-lead ECG's
- Assists with insertion of arterial line, central venous catheter, Swan-Ganz catheter, chest tube and life-saving bedside procedures
- Accompanies and monitors patients going to other departments for tests/procedures
- Types of patients: Level 1 traumas involving MTP, large abdominal surgery, plastic surgery, unstable tracheostomy patients, thoracic surgery including CABG, valve replacement. Familiar with monitoring equipment: Cardiac monitor, Arterial line, Central line, Swan-Ganz catheter, FloTrac/Vigileo system monitoring hemodynamic values, Intra-Aortic Balloon Pump, urinary catheter, gastric tube, chest tube, ventilator, point of care analyzers for blood gas

Texas Health Presbyterian Hospital*Travel RN, Medical ICU**Dallas, TX**April 2016-July 2016*

- Types of patients: Respiratory distress/failure involving ventilator support/management, ARDS, Sepsis, DKA, CVA, ESRD, Acute GI bleeding, Hepatic encephalopathy, Multi-organ system failure

Parkland Hospital*Travel RN, Medical ICU**Dallas, TX**January 2016-April 2016*

- Types of patients: Respiratory distress/failure involving ventilator support/management, ARDS, Sepsis, DKA, CVA, ESRD, Acute GI bleeding, Hepatic encephalopathy, Multi-organ system failure

Ben Taub Hospital*Staff RN, Medical ICU**Houston, TX**March 2015-December 2015*

- Types of patients: Respiratory distress/failure involving ventilator support/management, ARDS, Sepsis, DKA, CVA, ESRD, Acute GI bleeding, Hepatic encephalopathy, Multi-organ system failure

Kingwood Medical Center*Staff RN, Medical-Surgical ICU**Kingwood, TX**February 2014-February 2015*

- Types of patients: CVA, Respiratory distress/failure involving ventilator support/management, ARDS, Sepsis, DKA, ESRD, Acute GI bleeding, Percutaneous coronary intervention, Hepatic encephalopathy, Tracheostomy, Gastrostomy, Vascular surgery

LICENSE/CERTIFICATIONS

Registered Nurse (RN)- California

Expires December 2020

Registered Nurse (RN)- Texas

Expires November 2020

Pediatric Advanced Life Support (PALS)

Expires August 2021

Trauma Nurse Core Course (TNCC)

Expires March 2021

Basic Life Support (BLS)

Expires February 2022

Advanced Cardiovascular Life Support (ACLS)

Expires February 2022

NIH Stroke Scale (NIHSS)

Expires January 2022

Critical Care Registered Nurse (CCRN)

Expires April 2022
