This letter will briefly highlight the reasons my clinical experience and professional accomplishments make me an excellent candidate for this position. I graduated from the ADN program at Jefferson State Community College in December 2014 and am currently enrolled in the RN-BSN program at University of Louisiana Lafayette. Since graduation as a registered nurse I have dedicated myself to building a strong foundation within my work environment. I have learned from hands on experience in a variety of settings and have worked with patients ranging from neonates to geriatric. With each patient interaction, I focus on putting the patient's needs first, thorough assessments, and providing a safe, caring and compassionate environment. I consistently bring a strong desire to help others, effective communication skills, a willingness to work until the task is properly completed, and a team-player attitude in addition to my experience and personal qualities. I would welcome the opportunity to further present my qualifications in person and learn more about this position. Thank you for your consideration and I look forward to hearing from you soon.

Willing to relocate: Anywhere
