## Work Experience

---

### CPR

In the summer of 2019, I took an intensive Certified Nursing Assistant course and graduated with a 97 percent in the class. In July I took the state exam and passed it on the first try. During the class, I had the privilege of doing my clinicals at Congregational Home in Brookfield, WI. In March of 2020, I supplemented my CPR and first aid training by earning my certification in Basic Life Support through the American Red Cross. In 2016-2017, I worked at Harmony Pet Clinic as a dog handler and was certified in small mammal CPR. I am currently employed part time at Pick n' Save, working both as a cashier and in the bakery.
