## **10 year Registered Nurse/TDH Emt-Paramedic**

Loving, TX 76460

[workman.guy@yahoo.com](mailto:workman.guy@yahoo.com)

+1 325 244 4475

Please be advised, I am currently finishing up a home build for our family. It has taken months, with increased prices requiring my time to complete as I have been able. This explains my gaps in employment and prn from 4-2021 to 3-2022.

## Work Experience

---

### **Staff Per Diem Nurse**

Clipboard Health

May 2022 to Present

Per diem shifts on a prn basis in various disciplines . They include psych, long term care, med surgical and ER.

### **Staff RN, Per Diem**

ShiftKey

March 2022 to Present

Per Diem prn shifts in various disciplines.

### **Travel Nurse**

Krucial staffing - Austin, TX

December 2021 to February 2022

Krucial staffing—Staff RN doing mobile covid 19 monoclonal antibody infusion in peoples homes.

### **Staff Nurse RN North**

Runnels Hospital - Winters, TX

May 2021 to December 2021

I am a staff RN at a rural critical access hospital ER in West Texas. We have a total of 8 beds with three dedicated ER beds, three med/surg / telemetry and two dedicated covid-19 beds. We see a wide variety of patients and typically fly our critical to the level 2 in Abilene or the Dallas/ Ft. Worth area.

### **Staff Nurse RN-PRN**

Graham Oaks Graham - Texas

March 2021 to September 2021

I am a staff nurse working on a ventilator unit serving patients with multiple modalities of disease. Peg tubes, Tracy's, IV medications, central lines and ventilators are daily assignments.

### **Staff Nurse RN**

Krucial Staffing - San Antonio, TX

January 2021 to March 2021

I worked alongside nurses from across the country as COVID 19 response for FEMA deployment purposes. I was assigned ICU for one deployment, ER two times and a standby assignment.

### **ER Charge Nurse RN**

Hendricks Medical Center South - Abilene, TX  
October 2020 to October 2020

Responsible for oversight of Personnel, Triage treatment of multiple modalities and disease processes, ventilator/sedation management, and ICU holds.

### **ER Charge Nurse RN**

Abilene Regional Medical Center - Abilene, TX  
June 2019 to October 2020

Responsible for oversight of Personnel, Triage treatment of multiple modalities and disease processes, ventilator/sedation management, and ICU holds. 23 bed unit with a secure room for psychiatric situations. Level 4 with telemedicine neurology capabilities.

### **Diabetes Educator**

RN Angel Staffing, Inc. - San Antonio, TX  
November 2018 to January 2019

My responsibilities included virtual health diabetes education. It was a brand new program instituted by a joint force with USAF and the US Army. I was tasked with monitoring active military and retired Veterans via Bluetooth technology. In addition, we monitored patients that were actively deployed. This was a very unique program that is intended to set a baseline for a new virtual health in the US Military.

### **Assistant Director of Nursing**

Genesis Coronado Nursing Center - Abilene, TX  
February 2018 to July 2018

My responsibilities included personnel management, oversight of clinical aspects of nursing care, nursing education, employee health and infection control. The average census was approximately 80 residents.

### **Staff Nurse RN/Charge**

Nurse Continue CARE Hospital - Abilene, TX  
August 2017 to February 2018

Full-time Staff RN tasked with direct patient care and charge nurse as needed. As a Staff Nurse, my assignment would typically include 4-6 patients dependent on the severity/acuity. As a Charge Nurse, my assignment would include oversight/management of an average of 19 patients, 5 nurses and 3 nurses' aides.

In addition, the management of all care and management of the operations on a daily basis.

### **ER Staff Nurse RN**

Rolling Plains Medical Center - Sweetwater, TX  
August 2017 to January 2018

My responsibilities included an assignment of four rooms dependent upon severity. Level four with 16 beds.

### **House Supervisor psych**

Night House Supervisor RN OCEANS HEALTHCARE - Abilene, TX

February 2017 to January 2018

Managing all aspects of the hospital at night. The average patient census was 80 with approximately 25 employees on an average shift. I maintained oversight over admissions, discharges, staff, human resources needs, etc. This was my first full-time job as a Nurse as I retired from my Firefighting career on 02-19-2017.

### **Fire Lieutenant/Paramedic**

City of Abilene Fire Department - Abilene, TX

February 1991 to February 2017

I started work in 1991 as a Firefighter/EMT. I obtained my EMT-Intermediate in 2000. In 2012, I received my RN and challenged the NREMT-P exam and became a Paramedic. Promotion to Lieutenant/Fire Officer was next and the title of Field Resource Medic for the City of Abilene. It was a Supervisor position with multiple responsibilities. I responded to all structure fires, rescues, pediatric, cardiac, respiratory and cardiac arrest calls. My Supervisory role included oversight of 46-48 firefighters with regard to the overall EMS system for the shift. We maintained full ACLS care on all Frontline apparatus. I estimate that I responded to approximately 2500-3000 cardiac arrest calls in my career. Cardiac care was our specialty. Lastly, I served on multiple committees and as a NREMT skills assessors.

### **Registered Nurse**

Continued Care Hospital - Abilene, TX

April 2014 to December 2016

We were a 19 bed independently owned LTAC unit inside of Hendrick Medical Center. We managed a large spectrum of diseases with ContinueCare. Typically, we averaged 2-5 patients with long term antibiotic therapy, in depth wound care, wound vacs, grafts, ventilators, sedation drips, cardiac drips, Levophed, chest tubes, ET tubes, hospices, etc. We dealt extensively with peg, often, ngt, tracheostomy, and colostomy patients. It was essentially an ICU without cardiac bypass patients and arterial monitoring. I functioned as both a Staff Nurse, PM Nurse Educator and Charge Nurse for the floor.

### **Registered Nurse**

Hendricks Medical Center - Abilene, TX

September 2013 to April 2014

I transferred to the Telemetry unit on C-6. We managed pre/post cardiac catheterization patients and Telemetry monitored 24/7 patients. My typical patient assignment would range from 4-5 patients for my assigned shift. We dealt with CHF, cardiac drips, TR bands and were recognized and certified as an NIH Stroke Unit typically as overflow only. This was a part-time job in addition to my firefighter career.

### **Registered Nurse**

Hendricks Medical Center- Medical/Surgery/Urology - Abilene, TX

June 2012 to September 2013

My initial assignment as a Registered Nurse was on Parker 5 at HMC. The floor managed disease processes including; Pre / Post-Surgical, Urology/Dialysis/Renal, Orthopedic overflow and a few Oncology patients. My typical patient load averaged 5 patients per shift.

## **Staff Nurse RN**

Krucial Staffing Fema Response Covid - San Antonio, TX

4 week contract

I worked as a RN performing mobile monoclonal antibody infusions intravenously as a special response teams going to patients homes. This was an assignment organized by the Texas Governor, FEMA and Texas DSHS. We were organized in a team of myself and two paramedics with a suburban, equipment and medication performing scheduled work and as needed as well.

## Education

---

### **AAS ADN in Nursing**
