Summary

As a dedicated Women's Health Nurse Practitioner, I am looking to become a contributing provider in a challenging setting which utilizes my skills and furthers my education. Experienced registered nurse with five years of perinatal nursing and four years of telemetry nursing.

Education

THOMAS JEFFERSON UNIVERSITY, Philadelphia, Pennsylvania

Women's Care and Gender Related Nurse Practitioner

January 2019 - 2021
Summa Cum Laude

Clinical Experience

- Axia Main Line Women's OBGYN -focus on routine and high risk obstetric and gynecologic care of women through the lifetime
- Einstein OBGYN -focus on fibroid diagnosis, management, and care
- Lifecycle WomanCare -focus on low risk prenatal care for out of hospital midwifery delivery, and gynecologic care for women through the lifetime

UNIVERSITY OF PITTSBURGH, Pittsburgh, Pennsylvania

Bachelor of Science in Nursing

Graduated April 2012

Nursing Experience

BRYN MAWR HOSPITAL, *Registered Nurse* Perinatal Unit

March 2016 - Present

- Cares for and documents on patients in the antepartum, labor, and post partum stages; as well as newborns.
- Provides postpartum mothers with education, emotional, and breast feeding support.
- Complete cervical checks on laboring patients, and help guide them through stages of labor.
- Management of critical patients during labor through collaboration with physicians, pharmacists, and lab personnel.
- Assess newborns, administer hearing screens, draw lab work, and collaborate with NICU to determine level of care.
- Circulate, scrub, and assist physicians during cesarean sections.
- Assumes charge nurse responsibilities for the combined areas of post partum and LDR for care coordination.
- Orient nurses to labor and delivery, post partum, and well-baby nursery.

PAOLI HOSPITAL, *Registered Nurse* Telemetry/Stroke Unit

April 2012 - March 2016

- Completed Nurse Residency Program for MLH, including creating unit specific EBP research project.
- Care for patients with primary or underlying cardiac, neurological, and respiratory diseases.
- Interpret, assess, and treat cardiac rhythm strips, lab values, and vital signs.
- Assess patients for stroke like symptoms and perform the NIH Stroke Scale to determine evolution or change.
- Serve as charge nurse supervising up to ten staff members for a 32 bed unit.

BRYN MAWR HOSPITAL, *Nurse Extern*

May 2011 - May 2012

ROXBOROUGH MEMORIAL HOSPITAL, *Nurse Extern*

May 2010 - May 2012
