Professional Summary

Self-Motivated ~ Reliable ~ Adaptable

A committed, dependable nurse capable of making measured, pragmatic decisions while remaining cognizant of long-term health goals and overall well-being of patients. Provides thorough patient-specific education. Works confidently in the field, responding to new environments and emergency situations with safe, calm, organized demeanor. Committed to ongoing professional development and excellence through higher education, specialized training and volunteer service. Able to work well both independently and as a contributing member of a larger care team, maintaining clear and thorough communication with colleagues.

Core competencies include:

- Emergency Response • Assessment • Medication Administration
- Case Documentation • Strong Communication • Patient Liaison and Advocate
- Care across the majority of age spectrum • Equipment Management

Additional Key Strengths

Confident in the field: Administers care according to protocol. Seeks confirmation assistance if necessary. Capable of recognizing, managing and requesting assistance with emergent medical situations. Highly effective with task prioritization and time management. Strong work ethic - arrives to be prepared on time, does not call out for shifts, picks up shifts requiring coverage, willing to work offered overtime and rare to request time off.
