10. Management of patients requiring critical care therapies such as non-invasive and invasive mechanical ventilation including HFOV, CRRT, ECMO, vasoactive infusions, neuromuscular blockade, inotropic & anti arrhythmic infusions, and continuous sedation.

### **RN ICU Travel Nurse**

Fastaff Travel Nursing - Greenwood Village, CO

December 2020 to May 2021

1. Provided direct patient care to critically ill adults.
2. Responsible for developing and implementing the nursing care plan including but not limited to:
  - Hemodynamic monitoring (invasive blood pressure monitoring with arterial line/PICO Swan Ganz Catheters, ICP)
  - EKG monitoring & rhythm interpretation
  - Initiation & titration of vasoactives, inotropes, sedation, & neuromuscular blocking agents based upon ordered parameters
  - Completion of complex wound care
  - Management of patients requiring mechanical ventilation (CPAP, BiPAP, conventional & non conventional modes of mechanical ventilation via tracheostomy or endotracheal tube) as well as those requiring medical gases (heliox & iNO)
  - Management of patients requiring IABP, Impella, VAD, ECMO, EVD
  - Administration of medications via all routes
  - Enteral and Parenteral Nutrition therapy
  - Patient & Family education
  - Collaboration with members of the multidisciplinary care team

## **RN CVICU**

HealthTrust Workforce Solutions - Central Florida Region  
October 2020 to December 2020

1. Provided direct patient care to critically ill adults.
2. Responsible for developing and implementing the nursing care plan including but not limited to:
  - Hemodynamic monitoring (invasive blood pressure monitoring with arterial line/PICO Swan Ganz Catheters, ICP)
  - EKG monitoring & rhythm interpretation
  - Initiation & titration of vasoactives, inotropes, sedation, & neuromuscular blocking agents based upon ordered parameters
  - Completion of complex wound care
  - Management of patients requiring mechanical ventilation (CPAP, BiPAP, conventional & non conventional modes of mechanical ventilation via tracheostomy or endotracheal tube) as well as those requiring medical gases (heliox & iNO)
  - Management of patients requiring IABP, Impella, VAD, ECMO, EVD
  - Administration of medications via all routes
  - Enteral and Parenteral Nutrition therapy
  - Patient & Family education
  - Collaboration with members of the multidisciplinary care team

## **Staff RN ICU, Per Diem**

Acuity Specialty Hospital L-TAC - Willingboro, NJ  
July 2020 to October 2020

1. Provided direct nursing care to chronically critically ill adults
2. Responsible for management of patients requiring various levels of respiratory support ranging from LFNC oxygen, HFNC oxygen, CPAP, BiPAP, & Mechanical Ventilatory Support via tracheostomy and endotracheal tubes.
3. Responsible for management of patients requiring invasive blood pressure monitoring via arterial lines, care of patients with PICCs and other CVLs as well as those receiving enteral and parenteral nutrition.
4. Performed complexed wound care, administered medications via all routes including titration of vasopressors, inotropes, sedatives, analgesics, and paralytic agents.
5. Assisted with central line, arterial line, chest tube insertion as well as endotracheal intubation
6. Developed and implemented the nursing plan of care
7. Provided patient and family education
8. Collaborated with members of the multidisciplinary team to ensure optimal patient outcomes

## **PNP PICU/CVICU Locum Contract Provider**

LocumTenens.com (Children's Hospital & Medical Center Omaha) - Alpharetta, GA  
April 2020 to July 2020

1. Stabilization & ongoing medical management of critically ill infants, children, adolescents, and young adults with various diagnoses in Pediatric Intensive Care & Pediatric Cardiac Intensive Care Units.
2. Ordering & interpreting laboratory & diagnostic studies
3. Ordering, monitoring patient response, and adjusting as clinically necessary medications and therapies.
4. Completing medical history and physical examinations
