A compassionate and hard-working Registered Nurse seeking to expand learned skills and knowledge in a prestigious organization whereas assisting in nursing roles with a principle focus of patient safety while forming positive relationships with patients, family members, caregivers, and physicians. Desiring a career where my vast experience and skills will be utilized in determining the psychosocial, biophysical, self-care and learning requirements of the patients, families, and other stakeholders to create, implement, and evaluate the plan of care.

Work Experience

Savannah, GA

May 2020 to Present

Staff RN/Charge Nurse

Select Specialty critical care RECOVERY Hospital: WOUND CARE - Savannah, GA

September 2019 to Present

SPECIALTY, ICU STEP-DOWN

Managing care for chronic, critical ill and post ICU patients who require extended hospital care. Responsible for receiving admissions and transfers, initial and ongoing systemic patient assessments, documentation, interpreting diagnostics labs and telemetry. Provides high quality care for a wide variety of critical care patients, encapsulating all interventions with Critical Care RN scope of practice.

Competence in rapid responses and code events. Collaborates with physicians from all disciplines to provide/manage care for critically ill patients. Managing and facilitating orders for wound care treatments, physical therapy, occupational therapy, speech therapy, swallow evaluations, and transitioning to hospice care when accessible. Served on Strategic planning committee; achieved improved hiring processes and staffing guidelines. Implemented RN clinical skills and judgments, patient/family teaching, interdisciplinary communication and collaboration, order transcription, leading/supervising staff members, training new employees, processing admissions and discharges and implementing end of life care/processes.

Maintaining patient dignity and respect and advocating for each patient on a case-by-case basis. `
