Work Experience

Registered Nurse, University

Miami Hospital - Miami, FL

April 2017 to Present

Coordinated care with physicians and other clinical staff to prepare for treatment, carry out interventions and enhance continuum of care to deliver comprehensive services.

Monitored and recorded patient condition, vital signs, recovery progress and medication side effects.

Administered medications, tracked dosages and documented patient conditions.

Monitored and educated nursing students and externs on proper care procedures and prioritization strategies.

Delivered quality care and comfort to patients with heart failure, pulmonary hypertension, pulmonary embolisms and end-stage renal disease.

Rn -Behavioral Health

Florida Medical Center - Fort Lauderdale, FL

March 2014 to February 2017

Developed appropriate policies for identification of medically-related social and emotional needs of clients.

Recorded comprehensive patient histories and coordinated treatment plans with multi-disciplinary team members.

Provided client assessments upon admission and discharge.

Handled various patient-oriented duties, including vital sign monitoring, medication administration and patient behavior assessments.

Documented all medications administered to mental health patients, following instructions from physicians and healthcare providers.

Discussed non-medical techniques such as yoga and meditation to help patients alleviate depression and anxiety.

Followed all safety protocols when administering subcutaneous and intramuscular injections.

Monitored patients prescribed psychotropic medications to assess medications' effectiveness and side effects.
