Compassionate, hardworking and service-oriented Cardiac Intensive Care RN with one year experience who is looking to bring my service to a new area. Looking to take advantage of my excellent communication skills working with diverse patient populations and collaborating as a leader in an interdisciplinary healthcare team.

## Work Experience

---

### **Advocate**

Cardiac Medial Care Intensive Care Unit - Madison, WI

March 2020 to Present

- Madison, WI

- Provided critical and emergent nursing care to patients experiencing cardiogenic shock, myocardial infarction, cardiac arrhythmias, cardiac arrest, target temperature management, pulmonary emboli, heart failure and percutaneous valve replacements
- Administer and titrate vasoactive, inotropic, sedative and paralytic medications
- Monitor, interpret, and communicate patient hemodynamics to the healthcare team using Swan-Ganz, central and arterial catheters
- Perform comprehensive bedside assessments on critically ill patients, identifying changing patient conditions and vitals, and exercising clinical judgement to ensure proper patient care
- Management of patients with continuous dialysis, intra-aortic balloon pumps, PVADs, mechanical ventilation, ECMO, EKOS and transvenous pacemakers
- Advocate for patient and family well-being, while providing education and support
