## Work Experience

---

### **Medical Oncology Registered Nurse**

Mount Nittany Medical Center, State College

September 2019 to Present

- Provide inpatient, bedside care to 4-5 medical telemetry patients per shift
- Ready patients for stress testing, echocardiograms, peripheral diagnostic studies and other procedures
- Administer blood product transfusions and monitor patients for adverse reactions
- Monitor a variety of post-surgical patients that include wound vacs, chest tubes, JP drains, PD catheters, nephrostomy tubes and basic wound care
- Prepare and administer oral, rectal, NG/PEG tubes, SUBQ, IM, IV, and record prescribed medications
- Manage and provided clinical direction/delegation to CNAs.
- Offer patient and family guidance and support in illness management, home-care, medication and side effects, diet, nutrition and exercise

### **Emergency/Trauma Registered Nurse**

UPMC Altoona - Altoona, PA

January 2019 to August 2019

- Collected current symptoms, as well as a detailed patient history and then consulted and coordinated with health care team members to assess, plan, implement and evaluate patient care plans
- Performed triage, while considering both physical and psychosocial elements
- Managed basic life support needs and stabilized patients until the attending physician is available, based upon nursing standards and protocol
- Initiated corrective action whenever information from monitoring equipment showed adverse symptomatology
- Recorded patients' current vital signs
- Worked directly under physicians, assisting them during exams, diagnostic testing and treatments
- Prepared and administered (orally, subcutaneously, through an IV) and recorded prescribed medications
- Reported adverse reactions to medications or treatments in accordance with the policy regarding the administration of medications by a licensed registered nurse
- Provided IV therapy
- Displays professionalism while completing multiple urgent tasks in a timely manner
- Records all care information concisely, accurately and completely, in a timely manner, in the appropriate format and on the appropriate forms

### **Medical Technologist**

UPMC Cole - Coudersport, PA

June 2015 to November 2018

- Studied blood cells, their numbers, and morphology using a microscopic technique
- Analyzed test results and enters findings in computer
- Performed blood group, type, and compatibility tests for transfusion purposes
- Troubleshoot, diagnosed and repaired any issues with the equipment used in the laboratory
- Maintain quality assurance of the laboratory by performing proficiency testing
