## Summary of Qualifications

- ◆ Over eleven (11) years of nursing experience in hospital, crisis stabilization center, rehab and nursing center, nursing home, assisted living, and home health and personal care settings. Positive performance reviews with specific recommendation for delivering excellent patient-centered quality care from supervisors. Dedicated to multidisciplinary team approach, including monitoring and education of new nurses and assistants. Proven ability to build positive relationships with patients, family members, physicians and other medical professionals.
- ◆ Reliable, ethical healthcare provider with the ability to remain calm under pressure, perform necessary tasks quickly and correctly, and make difficult decisions swiftly in emergency situations. Strong time management skills, detail oriented with solid experience in resolving complex and sensitive issues using clinical judgement. Informed sensitivity to diversity issues and ability to work amicably with persons from diverse backgrounds.
- ◆ Professional demeanor and strong customer service orientation. Excellent communication skills: technical documentation, report writing and presentation; negotiation and advocacy skills. Proficient computer skills, including Microsoft Office Suite and Internet technology. Advanced user of Epic healthcare management software, CareLogic electronic health record system and Cerner health information management system.
