Work Experience

HEALTH CARE SPECIALIST

US ARMY

February 2010 to April 2018

- Transported patients from accident scenes to hospitals in emergency vehicles.
- Remained level-headed and proactive during emergency situations.
- Conducted equipment inspections and vehicle checks in adherence with required maintenance schedules.
- Assessed emergency situations and prioritized medical care for patients.
- Rendered direct patient care, including stabilizing patients and determining course of action based on triage.
- Managed care in field and in-transit, including performing standard testing and administering necessary medication.
- Evaluated patients' medical status and monitored vital signs during transit.
- Monitored patients from scene to hospital transfer while conducting in-transit care.
- Documented all patient information, including condition or injury, treatment and medication administration.
- Assessed scenes and prioritized care according to severity of injury or illness.
- Collaborated with team members and other first responders, ensuring consistent communication to maintain order and efficient care delivery.
- Delivered first aid or life support care to sick or injured individuals in pre-hospital settings.
- Performed stomach suction, airway management and heart monitoring to maintain consistent patient care during ambulance ride.
- Demonstrated dedication to providing quality care through continued training and education.
- Inserted IVs and administered oral and injectable medications.
- Operated ambulance to and from scenes and emergency facilities, responding to dispatch calls for emergent medical assistance.
- Completed emergency treatment procedures to stabilize individuals for transport.
- Developed strong rapport with other medical professionals to foster quality and efficient patient care.
- Monitored and replenished ambulance supplies, maintaining well-stocked inventory and properly functioning equipment.
