### EDUCATION

KIRTLAND COMMUNITY COLLEGE

*Grayling, MI*

A.S. Nursing (May 2019)

### LICENSES AND CERTIFICATIONS

Registered Nurse

### CAREER OBJECTIVE

Efficient recent college graduate with a Associate in Science (A.S.) in Nursing with 11+ years of work experience. Aiming to leverage academic experience and a proven knowledge of acute care facility, pre- and post-op care, and continuity of care to successfully fill the Registered Nurse role at your company. Frequently praised as hard-working by my peers, I can be relied upon to help your company achieve its goals.

### PROFESSIONAL EXPERIENCE

#### Critical Care Nurse

*St. Joseph's Hospital, 48763, MI / Dec 2019 – Present*

- Assess patients' pain levels and sedation requirements.
- Monitor patients for changes in status and indications of conditions such as sepsis or shock and institute appropriate interventions.
- Set up and monitor medical equipment and devices such as cardiac monitors, mechanical ventilators and alarms, oxygen delivery devices, transducers, and pressure lines.
- Administer medications intravenously, by injection, orally, through gastric tubes, or by other methods.
- Evaluate patients' vital signs and laboratory data to determine emergency intervention needs.
- Prioritize nursing care for assigned critically ill patients based on assessment data and identified needs.
- Document patients' medical histories and assessment findings.
- Advocate for patients' and families' needs, or provide emotional support for patients and their families.
- Conduct pulmonary assessments to identify abnormal respiratory patterns or breathing sounds that indicate problems.
- Administer blood and blood products, monitoring patients for signs and symptoms related to transfusion reactions.
- Monitor patients' fluid intake and output to detect emerging problems such as fluid and electrolyte imbalances.
- Document patients' treatment plans, interventions, outcomes, or plan revisions.
- Collaborate with other health care professionals to develop and revise treatment plans based on identified needs and assessment data.
- Assess patients' psychosocial status and needs including areas such as sleep patterns, anxiety, grief, anger, and support systems.
- Collect specimens for laboratory tests.
- Assist physicians with procedures such as bronchoscopy, endoscopy, endotracheal intubation, and elective cardioversion.

- Ensure that equipment or devices are properly stored after use.
- Provide post-mortem care.

### **Registered Nurse**

*Iosco County Medical Care Facility, 48763, MI / Jun 2019 – Dec 2019*

- Monitor, record, and report symptoms or changes in patients' conditions.
- Maintain accurate, detailed reports and records.
- Record patients' medical information and vital signs.
- Order, interpret, and evaluate diagnostic tests to identify and assess patient's condition.
- Modify patient treatment plans as indicated by patients' responses and conditions.
- Direct or supervise less-skilled nursing or healthcare personnel or supervise a particular unit.
- Consult and coordinate with healthcare team members to assess, plan, implement, or evaluate patient care plans.
- Instruct individuals, families, or other groups on topics such as health education, disease prevention, or childbirth and develop health improvement programs.
- Provide health care, first aid, immunizations, or assistance in convalescence or rehabilitation in locations such as schools, hospitals, or industry.
- Prepare rooms, sterile instruments, equipment, or supplies and ensure that stock of supplies is maintained.
- Observe nurses and visit patients to ensure proper nursing care.
- Conduct specified laboratory tests.

### **CNA**

*Medilodge of Tawas, Tawas City, MI / Jun 2014 – Jan 2015*

- Review patients' dietary restrictions, food allergies, and preferences to ensure patient receives appropriate diet.
- Supply, collect, or empty bedpans.
- Turn or reposition bedridden patients.
- Undress, wash, and dress patients who are unable to do so for themselves.
- Wash, groom, shave, or drape patients to prepare them for surgery, treatment, or examination.
- Lift or assist others to lift patients to move them on or off beds, examination tables, surgical tables, or stretchers.
- Answer patient call signals, signal lights, bells, or intercom systems to determine patients' needs.
- Apply clean dressings, slings, stockings, or support bandages, under direction of nurse or physician.
- Change bed linens or make beds.
- Collect specimens, such as urine, feces, or sputum.
- Communicate with patients to ascertain feelings or need for assistance or social and emotional support.
- Document or otherwise report observations of patient behavior, complaints, or physical symptoms to nurses.
- Feed patients or assist patients to eat or drink.
- Measure and record food and liquid intake or urinary and fecal

- output, reporting changes to medical or nursing staff.
- Observe or examine patients to detect symptoms that may require medical attention, such as bruises, open wounds, or blood in urine.
  - Prepare or serve food trays.
  - Record height or weight of patients.
  - Record vital signs, such as temperature, blood pressure, pulse, or respiration rate, as directed by medical or nursing staff.

CNA

*Medilodge of Alpena, Alpena, MI / Aug 2003 – Nov 2012*
