## Objective

An enthusiastic and highly motivated professional looking for a position in a high pace and friendly environment.

## Work History

**UF Health Shands Hospital - RN**  
September 2020 - December 2020

Medical surgical nurse providing direct and individualized nursing care. Provided bedside care for a wide variety of medical patients, including pre- and post-surgery patients. Consulted and coordinated with health care team members to assess, plan, implement, and evaluate patient care plans. Prepared and administered medications orally, subcutaneously, intramuscularly, rectally, intravenously, or through gastrostomy tubes. Performed head to toe assessments on patients. Monitored vital signs. Changed dressings, whether wound dressings, IV dressings, or gastrostomy tube dressings. Recorded all patient care information concisely, accurately, and completely, in a timely manner.

**Cleveland Clinic - LPN, RN**  
November 2018 - September 2020

Outpatient float nurse that adapts and provides direct quality care based upon nursing assessment to patients who have a variety of medical and/or surgical conditions, from adolescent to geriatric, following established standards, department guidelines, and hospital policies and procedures. Utilize the nursing process including patient advocacy, documentation of treatments and care, management of equipment, and ensure and provide patient safety. Work amongst various specialties such as urology, gynecology, gastroenterology, and other ambulatory and surgical centers. Worked alongside the physicians and assisted them with complex procedures such as gynecological/urological biopsies, IUD insertions/removal, nerve blocks, as well as simple procedures such as inserting and removing catheters, performing bladder scans, assisting with pap smears, administering injections. Assisted with telephone and MyChart messages triaging, performing intake, taking vital signs, and discharging patients. Function as a lead of the COVID-19 department testing site. Assisted with specimen collection, placing orders, managing patient scheduling for testing, keeping inventory of supplies and ordering and replenishing supplies, coordinating staffing schedules, keeping statistics of how many people were tested daily and reporting statistics to the Florida Health Department, leading and mentoring the float staff, and educating patients on disease prevention and control.

**Jackson Memorial Health System - LPN**  
January 2018 - November 2018

Provided care pediatrics to geriatrics within the orthopedic rehabilitation clinic. Obtained vital signs, performed physical assessments, took fall precautions, made appointments, discharged patients, and helped patients find answers to their questions.

**Integrity Home Health Services - LPN**  
June 24, 2017 - January 2018

Provided around the clock direct quality care to pediatric patients. Obtained vital signs, performed physical assessments, administered medications, managed gastrostomy tubes and administered feedings, and carried out respiratory care.
