RE: Registered Nurse Position

I am a Registered Nurse with 3+ years' experience in critical care and step-down unit. While I enjoy my time as an ICU with Houston Methodist, I wish to explore more opportunities with the Intensive care unit in your organization.

I have molded my career from inception to achieve my goal of becoming a compassionate registered Nurse. My experience and education have provided me with excellent knowledge of patient assessment and treatment including medical practices, and critical patient care. This coupled with my attention to details, organizational, interpersonal, and communication skills will allow me to make a substantial contribution to your organization.

My experiences enabled me to develop strong skills that prepared me well for the challenges of nursing. I am confident that I will continue to develop as a nurse; particularly as I provide care to a diverse patient population.

A letter and resume can only tell you so much, and I would appreciate the opportunity to discuss further my qualifications, and experience. I am very interested in working with your organization, and I believe my skills and experience prepared me well. Please do not hesitate to contact me at 832-335-5795 or via email at ebegboni.rachael@gmail.com.

Sincerely,

Rachael Ebegboni
