Additional Information

SKILLS

I have been in the medical field all of my adult life. I was an STNA for 10 years, then an LPN for 5, and am now an RN. I enjoy learning new things and really value a challenge, traits that have given me a large skill set. I have experience in Emergency and Trauma, Respiratory - including vents and trachs, Med Surg and Observation, Inpatient Behavioral Health, Hospice, Rehab, LTC, and Management.

My personality is best suited for a fast paced and challenging environment. I am a quick learner, and naturally calm in moments of crisis. These tools have made me good at what I do, no matter what specialty I have chosen at the time.
