WORK HISTORY

CHRISTUS SPOHN SOUTH HOSPITAL - Telemetry Registered Nurse -FEMA (Covid)

Corpus Christi, TX • 11/2020 - 12/2020

- Administered heart and blood pressure medication to cardiac patients as prescribed by physicians specifically related to Covid.
- Observed patient health and side effects from treatments and medications, noting all details in patient chart.
- Provided skilled, timely and level-headed emergency response to critically-ill patients.
- Performed triage on all incoming patients and determined severity of injuries and illnesses.
- Reported patients' status and delegated nurse assignments to achieve optimal outcomes.

Transmountain Hospitals Of The Providence - Telemetry Registered Nurse-FEMA

El Paso, TX • 10/2020 - 11/2020

- Provided patients with information on such subjects as side effects from medications and benefits of proper nutrition to help promote better outcomes.
- Administered medications and treatment to patients and monitored responses while working with healthcare teams to adjust care plans, specifically for Covid patients.
- Performed ongoing assessments to evaluate mental health needs, working with multidisciplinary team to develop, initiate, manage and modify individualized plans of care.
- Communicated with healthcare team members to plan, implement and enhance treatment strategies.

Valley Regional Medical Center; Krucial Staffing - Registered Nurse, Medical-Surgical Telemetry Unit

Brownsville, TX • 07/2020 - 08/2020

- Monitored patient condition, including interpreting and tracking EKG readings, identifying irregular telemetry readings and updating team members on changes in stability or acuity.
- Successfully used meditech charting system and documented required information on all patients.

- Worked in high stress environment, with high patient to nurse ratios during record covid-19 surge in hospital.
- Continually monitored patients oxygen saturation and other vitals related to covid, relay to respiratory and all physicians as needed.
- Monitored patients on BIPAP, CPAP, tracheostomy's, and Hiflo oxygen requirements.
- Taught patients how to improve lifestyle choices, dramatically reducing chance of symptom reoccurrence.
- Observed and reported patient condition, progress and medication side effects to accurately document updates.
- Changed out tracheostomies, gastrostomy buttons and catheters regularly to prevent infection or other problems.
- Gathered lab specimens, ordered testing and interpreted results to diagnose patients.

**Bellevue Hospital, Krucial Staffing - Medical Telemetry Unit
Registered Nurse**

New York, NY • 04/2020 - 07/2020

- Managed patients recovering from medical or surgical procedures, including facilitating wound care, ostomy care, pressure ulcer prevention and pain management.
- Audited charts and reviewed clinical documents to verify accuracy.
- Delivered high level of quality care to diverse populations while overseeing patient admission and triaging based on acuity and appropriate department admission.
- Collected blood, tissue and other laboratory specimens and prepared for lab testing.
- Provided skilled, timely and level-headed emergency response to critically-ill patients.
- Adhered to strict safety measures by carefully determining proper dosages before administering medications.

Gulf Coast Health Care - Registered Nurse

Pensacola, FL • 11/2019 - 04/2020

- Worked as floor nurse for first 3 months, and then promoted to RN PM Supervisor.
- Delegate necessary tasks, as well as assist LPN's and other nursing staff with IV insertions, and other tasks out of their scope of practice.
- Taught patients how to improve lifestyle choices, dramatically reducing chance of symptom reoccurrence.
- Delivered outstanding care to patients with various diagnoses and managed care from treatment initiation through to completion.
- Implemented interventions, including medication and IV administration, catheter insertion and airway management.
- Changed out tracheostomies, gastrostomy buttons and catheters regularly to prevent infection or other problems.
- Evaluated system data to calculate and update Medicare and Medicaid budgeting systems.
