WORK EXPERIENCE

Virginia Internal Medicine

Nurse Practitioner – December 2020-March 2021

Harrisonburg, VA

- Provide primary and preventative care to long term care residents. Manage the care of patients requiring skilled nursing services. Order and interpret diagnostic testing and labs. Assess and treat acute and chronic illnesses. Manage end-of-life care. Collaborate with facility medical director, overseeing physicians, specialty services (PT/OT/ST, wound, psych), and nursing staff to deliver comprehensive, high quality care.

Body Essence

Nurse Practitioner – August 2020-December 2020

Staunton, VA

- Assess patients to identify treatment goals and determine suitability for treatment. Counsel on options and develop a specific treatment plan. Provide education on treatment processes, including pre- and post-care instructions. Monitor progress. Oversee RNs and give orders for treatments and injectables.
- Administer cosmetic injectables, including Botox, Kybella, and various dermal fillers. Perform laser treatments, microneedling. Recommend skincare products.

Novant Health-UVA Culpeper Medical Center

Emergency Department RN – July 2015-September 2020

Culpeper, VA

- Provide high quality in-hospital advanced life support to patients of all ages including assessment, triage, advanced procedures, administration of medications, cardiac monitoring, diagnostics and treatments utilizing hospital standards and guidelines.
- Maintain positive interpersonal relationships with colleagues, pre-hospital EMS representatives, hospitals, and the public.
